### MISSION STATEMENT

The City of Fayetteville's mission statement is a direct result of a volunteer team of employees charged with creating a mission statement that expressed the service core of City operations, reflected our beliefs concerning City services, and was easy to remember. All City employees were given an opportunity to provide input for the mission statement. The mission statement was then adopted by the City Council and is as follows:

To protect and improve our quality of life by listening to and serving the people with pride and fairness.

December 6, 2011

Members of City Council and Citizens of Fayetteville

I am pleased to submit my 2012 Annual Budget and Work Program for the City of Fayetteville. This budget has been prepared in accordance with the Arkansas Statutes and City Ordinances that require the Mayor, under the aldermanic form of government, to submit to the City Council the annual budget for approval. This budget allocates necessary funding for all municipal operations as well as necessary adjustments to the Capital Improvements Program for 2012.

Once again, the budget was formulated in the context of my primary budget goals considering current economic conditions.

### 2012 Budgetary Goals

My goals continue to be as follows:

- To provide the same level of services to the public if possible
- To retain the work force at the current level for necessary personnel but to evaluate the necessity of refilling open positions
- To avoid increases in taxes to the citizen by keeping the millage rate the same as 2010
- To continue to provide services to the citizen in the most efficient and effective manner possible
- To fund needed Capital Improvements to the greatest extent possible
- To scrutinize all City fund types for possible reductions

### **Financial Environment**

The local economic conditions in Fayetteville have improved in fiscal 2011 when compared to the prior two years of my administration. Sales taxes are up approximately 4% compared to prior year and 6% compared to budget through the end of the third quarter of fiscal 2011. The City has also experienced a moderate increase in building activity. Unfortunately unemployment still remains at 6.6%, which does compare favorably to the rest of the State and Nation but still is high for Fayetteville historically. The specter of national economic problems also looms large. For these reasons, this budget has been formulated on conservative revenue and expenditure estimates.

For 2012, we have forecasted all revenue sources to be equal to 2011 projections. The frozen positions I have directed in the past will be continued. Many of the cuts made during the previous two years will remain in force. However, since we still face a potential shortfall in the General Fund of approximately \$500,000, I have not included salary increases in the adopted budget. At the close of the 2011 fiscal year, I intend to analyze the City's financial position and if at all possible recommend a salary package for employees to the Council.

### **Conclusion**

This budget is based on realistic revenue and expenditure estimates. I believe that it continues to provide for the best possible level of services while still guarding against possible weakening economic conditions.

2011 has been another busy year for the City and together we have accomplished a great deal. With the combined efforts of this Administration and City Council support, I am confident that we will meet the challenges facing the City and continue to provide our citizens superior service levels.

Lioneld Jordan, Mayor

December 6, 2011

Mayor Lioneld Jordan, Members of the City Council and Citizens of Fayetteville:

The budget being presented is a 2012 operating budget. It does not include re-budgets that represent programs approved and appropriated in prior years which as of the end of fiscal 2011 remain uncompleted. Re-budgets also include amounts generated by previous bond issues in the Capital Project Funds which remain unspent as of December 31, 2011 and are likely to be in excess of \$45,000,000. These re-budgets will be presented for addition to the 2012 operating budget early in the first quarter of 2012.

In 2011, City and County Sales Taxes increased compared to 2010. By year end, total sales taxes are expected to be approximately 4% over prior year. The decline in both residential and commercial building has leveled off but fees associated with permitting and construction are still far below 2008 levels. Water and Sewer revenue collections have increased in fiscal 2011 due to unusually dry weather conditions during the summer months. Fuel and rent revenues at the airport are under 2010 collections. HMR revenue continues to increase and should finish the year up by 5%. Other fund operations are relatively stable when compared to the prior year.

The 2012 General Fund budget represents net expenditure increases from 2011 as an additional \$253,700 was added compared to last year's budget. This was due to required increases because of pension obligations, insurance increases, maintenance contracts, and vehicle replacement charges. Open positions (23.1 FTE's) continue to be frozen. Cost control measures began in 2009 and are being incorporated in the 2012 budget. Once again no salary increases are provided for in the 2012 budget.

Total reductions in the General Fund since the 2009 budget have been over \$2.5 million. A total of 23.10 FTE's have been held open, overtime has been drastically reduced, and annual salary increases have not been given since 2009. All these measures were taken to address revenue decreases experienced in 2009 and 2010 as the City reacted swiftly to these economic changes.

For 2012, the General Fund budget has been formulated on the assumption that revenues in 2012 will be essentially flat compared to current 2011 estimates. However, the \$1 million transfer from the Sales Tax Improvements Fund that was budgeted in 2011 will not be needed in 2012. The use of \$498,000 from fund balance is being requested for 2012.

### 2012 ADOPTED BUDGET EXECUTIVE SUMMARY

This budget is formulated with the Enterprise Funds being budgeted on an accrual basis except for depreciation, which is not included in the budget, and both capital expenditures and bond principal payments which are included in the expenditure budgets.

Governmental funds are budgeted on the modified accrual basis.

The total budget allocated by expenditure category is displayed in the following table.

### Summary of Fund Expenditures by Category (In Dollars)

							2012
		Adopted		Adopted		Change In	% of Total
		2011		2012	2 Dollars		Budget
Category:	_		•				
Personnel Services	\$	42,092,155	\$	42,466,864	\$	374,709	35.5%
Materials & Supplies		4,527,208		4,234,456		(292,752)	3.8%
Services & Charges		16,052,793		16,090,288		37,495	13.5%
Maintenance		3,975,581		4,508,422		532,841	3.4%
Fuel		2,946,398		3,460,493		514,095	2.5%
Internal Charges		3,944,052		4,354,031		409,979	3.3%
Purchased Water		6,500,000		6,500,000		0	5.5%
WWTP Operations		7,712,706		7,799,391		86,685	6.5%
Total Operating Expenses		87,750,893		89,413,945		1,663,052	74.0%
Transfers Out		1,233,000		330,600		(902,400)	1.1%
Debt Service		18,732,207		20,104,105		1,371,898	15.8%
Capital		10,798,100		11,482,350		684,250	9.1%
Total Expenses	\$	118,514,200	\$	121,331,000	\$	2,816,800	100.0%

The 2012 Adopted Budget is in excess of \$121.3 million. This is an increase when compared to 2011 of \$2,816,800 or 2.3%. The majority of that increase is due to changes in debt service and capital. The total operating expenses are up \$1,663,052 or 1.8%.

The following table indicates the percentage of total budget allocated by funds.

### Fund Totals as Percent of Total Budget

	Adopted 2011		Adopte	d 2012
	Budget	% Total	Budget	% Total
Funding Sources				
General \$	33,885,500	28.6% \$	34,139,200	28.1%
Water & Sewer	30,901,000	26.1%	30,908,000	25.6%
Sales Tax Bond	15,373,700	13.0%	16,372,400	13.5%
Solid Waste	9,208,300	7.8%	9,950,100	8.2%
Shop	7,239,900	6.1%	8,231,500	6.8%
Sales Tax Capital Improvements	6,390,000	5.4%	6,702,600	5.5%
Street	4,390,000	3.7%	4,706,600	3.9%
Parks Development	2,424,600	2.0%	2,358,000	1.9%
Police Pension	1,692,800	1.4%	1,633,000	1.3%
Fire Pension	1,480,400	1.2%	1,470,000	1.2%
Parking	1,065,100	0.9%	1,101,800	0.9%
Impact Fee	1,260,000	1.1%	921,000	0.8%
Airport	770,800	0.6%	768,000	0.6%
Town Center	702,700	0.6%	695,200	0.6%
Community Development Block Grant	695,800	0.6%	589,000	0.5%
Drug Law Enforcement	494,000	0.4%	544,000	0.4%
TIF Bond	63,700	0.1%	100,000	0.1%
Wastewater System Improvements Project	0	0.0%	97,600	0.1%
Fire Bond	424,800	0.4%	0	0.0%
Replacement & Disaster Recovery	45,100	0.0%	41,000	0.0%
Sales Tax Construction Bond	6,000	0.0%	2,000	0.0%
\$	118,514,200	100.0% \$	121,331,000	100.0%

An examination of the overall budget indicated that the General Fund is the largest fund being 28.1% of the total. The Water and Sewer Fund is second at 25.6% of the total. The combination of these funds is 53.7% of the total budget. The Sales Tax Bond Fund (budget to repay outstanding bonds) is 13.5% of the budget. Thus the three largest funds represent 67.2% of the total operating budget.

An important part of this budget document is the City's Financial Policies delineated in pages 4 through 8 which are incorporated as a part of the budget. These policies include the following:

Revenue Policy
Expenditure Policy
Debt Policy
Reserve Policy
Investment & Cash Management Policy
Capital Improvement Policy
Financial Reporting Policy
Administrative Procedures to Adjust the Approved Budget

### Overview of City's Major Funds:

**General Fund** is the major operating fund of the City and is comprised of activities not accounted for specifically in other funds.

The traditional functions of government are included in the General Fund which includes the following: general government services (Mayor's Administration, District Court, City Clerk and City Attorney), fire, police, finance, internal services, animal services, telecommunications, parks and recreation, cable, library funding, engineering, planning, and building safety.

### **General Fund Revenue:**

The General Fund revenue budget was based on the following assumptions:

- Revenue for the City Sales Tax is projected to increase at a rate of 4.48% over 2010 actual receipts.
- Revenue for the County Sales Tax is projected to increase at a rate of 2.07% over 2010 actual receipts.
- Revenue for Franchise Fees is projected to increase 4.97% over 2011 budget amount.
- Revenue for Property Taxes is projected to increase at a rate of 2.35% from 2011 collections based on assessed valuation.
- Other revenues are expected to be essentially flat compared to the 2011 budget.
- Maintaining the revenue split for City Sales Tax to 60% operations and 40% capital.

Based on these revenue assumptions, the major revenue sources for the General Fund in 2012 are projected to be as follows:

City's Share of County Sales Tax		\$10.7 million
City Sales Tax		9.8 million
Alcoholic Beverage Taxes		0.5 million
Franchise Fees		4.9 million
Intergovernmental Income		2.3 million
Fines & Forfeitures		1.6 million
Charges for Services		1.3 million
Property Tax Millage		1.5 million
Licenses & Permits		0.7 million
Other		0.3 million
	Total	\$33.6 million

### **General Fund Expenditures:**

Payroll expenditures are based on 99% of full employment. Therefore, a 1% vacancy allowance has been factored into the General Fund budget.

# The significant increases/(decreases) in General Fund for 2012 compared to 2011 are as follows:

2011 General Fund Adopted Expense Budget:	\$ 33,885,500
Additions:	
LOFPI Police Pension	\$ 52,589
LOFPI Fire Pension	52,570
Health Insurance (Rate Increase)	21,871
Fuel	51,550
Motorpool Charges	54,614
Election Cost (General Election)	30,000
Police Jail Contract	10,500
Utilities	14,400
Other	12,613
Software Maintenance	59,807
	 360,514
Reductions:	
Personnel Turnover & Other	(7,182)
Insurance - Personal Liability / Vehicles	(17,480)
Radio Maintenance	 (82,152)
	(106,814)
Net Additions/(Reductions)	\$ 253,700
	\$ 34,139,200

### Changes between the 2009 and 2012 budget are as follows:

2009 General Fund Adopted Expense Budget:	\$ 35,801,900
Additions:	
Salaries/Wages & Pension (including LOFPI)	\$ 475,083
Health Insurance (Rate Increase)	157,755
Unemployment Insurance	80,000
Software Maintenance	97,143
Election Cost	45,000
Police Jail Contract	10,500
Utilities	14,400
Bad Debt Expense	 10,000
	\$ 889,881
Reductions:	
2010 Budgeted Positions Held in 2011 & Frozen Positions	\$ (1,058,971)
Salary Contingency (Wage Increases for 2010)	(325,398)
Fire/Police Overtime	(225,000)
Parking Enforcement Program (Shifted to Parking Fund)	(201,948)
Contract Services & Lease Expense	(112,176)
Fuel	(45,039)
Radio Maintenance	(82,152)
Washington, D.C. Lobbyist	(85,000)
Increase Cost Allocations	(70,000)
Vehicle Replacement Charges & General Motorpool Charges	(13,000)
Public Notification & Uniforms/Equipment	(51,910)
Planning Commissioners Salaries	(43,596)
Publications/Dues & Travel & Training & Radio Maintenance	(26,315)
Pension Administration Fee & Long Term Disability and Life Insurance	(34,082)
Other	 (177,994)
	 (2,552,581)
2012 Adopted Budget General Fund	\$ 34,139,200

As the City's main operating fund, the General Fund will continue to face increased funding demands. There are numerous unfunded needs for 2012 that could not be addressed at this time.

Major policy issues to be considered for General Fund in the future include:

- The need to fund employee wage increases sometime in the future.
- Continue to explore an independent funding method for the Fayetteville Public Library.
- Examination of the User Fee/Cost Reimbursement rates based on a cost analysis.
- Continued examination of the City's overall long term revenue stream to match required long term expenditures.

The **Street Fund** is primarily financed by turnback revenues received from the State of Arkansas and turnback monies received from the County Road Millage Tax. These monies are utilized to maintain and repair City streets, rights-of-way, drainage, traffic control and maintenance, and City owned sidewalks.

State turnback comes from motor fuel taxes collected by the State (state turnback) and returned to the City on a per capita basis. The long term trend for state turnback is flat. A total of \$3.5 million is projected for 2012. The City also receives 80% of the road millage levied by the Quorum Court on real and personal property located within the City. This should generate in excess of \$1 million. The Street Fund budget is balanced for 2012 with revenues equaling expenditures.

The **Parking Fund** has been established to account for the revenue and expense associated with the paid parking program. Feasibility of a revenue bond issue for the construction of a parking facility is currently being considered by the City Council. Net revenue from this fund would be pledged for payment of that bond issue.

The addition of one FTE is being requested for this fund to address the current workload. This fund has a budgeted surplus of \$277,700 for 2012.

The **Parks Development Fund** accounts for the revenue and expenditures of the Parks HMR tax approved by the voters in 1995 as modified by the 2011 referendum. The \$2.4 million in planned expenditures for 2012 includes \$587,000 in capital improvements. The fund is budgeted to break even for 2012. All projected revenues amounts are budgeted for this fund.

The **Impact Fee Fund** accounts for the revenues and expenditures related to the collection of water, wastewater, police, and fire impact fees. All projected revenues are budgeted for this fund. Due to the continued fall in development, the collection of these fees will be slightly less in 2012 than 2011.

The **Sales Tax Capital Improvements Fund** accounts for the revenue and expenditures of the City's sales and use taxes which are used for acquisition and improvement projects as well as equipment additions and replacements that are included in the City's five-year capital improvements program as adjusted. The 2012 planned expenditures include \$6,695,300 in capital improvements.

The **Water & Sewer Fund** accounts for the revenue sources as well as the operation and maintenance expenses of the City's water and sewer system. This includes water purchases from Beaver Water District, all water and sewer functions, the operation of the wastewater treatment plants, meter and backflow operations, and billing and collections.

For 2012, the Water & Sewer Fund is projected to have an operating gain of \$5,507,000 before depreciation expense and capital expenditures. The wastewater treatment plant operations are budgeted at \$7.8 million, which represents almost 26% of the total operating expenses. The water purchases budgeted for 2012 represent the second largest expenditure for operations in the fund at \$6.5 million. This represents approximately 21% of total operating expenditures. This fund is budgeted to break even in 2012.

The **Solid Waste Fund** is responsible for the operation of the City's solid waste collection and disposal, recycling program, and composting program. Revenues for the fund are obtained from fees levied for trash collection, recycling revenue, and container sales or leases. During the end of 2009, the operation of the transfer station was brought in house and is currently being operated by the City. For 2012, the Solid Waste Fund is projected to have a loss of \$821,300 primarily due to needed capital improvements. However, there are sufficient reserves to accommodate this deficit.

The **Airport Fund** provides for the operation and maintenance of the City's municipal airport. The Airport Fund's revenue is generated from rents and leases. For 2012, the Airport Fund is projected to have an operating deficit of \$91,000 before depreciation.

The **Shop Fund** is an internal service fund that provides for the acquisition and maintenance of equipment and vehicles utilized by the City's operating divisions. The Shop Fund's source of revenue is from charges to other City operating funds based on equipment and vehicle usage. The Shop Fund will have a projected \$741,100 loss for 2012 after capital expenditures of \$3,610,000. This amount will come from fund balance which reflects the previous accumulation of funds for replacement of equipment and vehicles when needed.

### 2012 Capital Budget

This plan contains a total of \$15,600,000 for capital projects in 2012. A detail listing of all of the projects planned for 2012 are included under the Capital and Debt section.

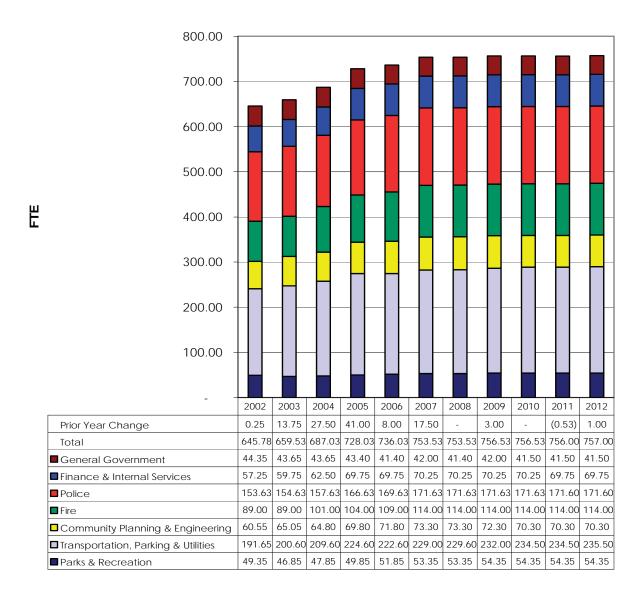

### Debt Issues – 2011

No new debt was issued in 2011 as of the date of this budget presentation.

### Personnel Changes

This budget includes an addition of one FTE for 2012. The Entertainment District Parking Program increased the workload and responsibilities of the Parking and Telecommunications Division. The Account Clerk position is funded in the Parking Fund. Below is a history of total positions by activity from 2002-2012.

### Personnel History (2002-2012)

### **CLOSING**

The funding proposals contained in this budget are the result of a collaborative effort among all City Division Heads, Department Directors, and City financial Staff members. It is built on the policies, goals, and objectives outlined by the Mayor and City Council. It represents the financial and operational plan for the City of Fayetteville for 2012. The appropriations contained in this budget will provide for quality municipal services that meet the needs of the Citizens of Fayetteville and it is, hereby, submitted by the Mayor to the City Council for consideration and adoption.

Respectfully submitted,

Paul a. Becken

Respectfully submitted,

Len Jour

Paul A. Becker Finance Director Kevin Springer Budget Director

### **RESOLUTION NO. 212-11**

A RESOLUTION ADOPTING THE 2012 ANNUAL BUDGET AND WORK PROGRAM.

# BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF FAYETTEVILLE, ARKANSAS:

<u>Section 1.</u> That the City Council of the City of Fayetteville, Arkansas hereby adopts the 2012 Annual Budget and Work Program. A copy of the Budget, marked Exhibit "A" is attached hereto and made a part hereof.

**PASSED** and **APPROVED** this the 6<sup>th</sup> day of December, 2011.

APPROVED: ATTEST:

LIONELD JORDAN, Mayor SONDRA E. SMITH, City Clerk/Treasurer

(Page Left Blank Intentionally)	

# CITY OF FAYETTEVILLE, ARKANSAS THE BUDGET PROCESS

The budgets of governmental funds (for example General Fund, Street Fund, and Parks Development Fund) are prepared on the modified accrual basis for revenues and expenditures. Under the modified accrual basis of accounting, revenues are recognized when they become both measurable and available. Expenditures are recorded when the related fund liability is incurred. The proprietary and trust fund types (Water & Sewer Fund, Solid Waste Fund, and Airport Fund) are budgeted on a full accrual basis except for depreciation which is excluded and both capital purchases and bond principal payments which are included as expenditures. Not only are expenditures recognized when the liability is incurred but revenues are recognized when they are due and owing to the City (for example, water user fees are recognized as revenue when bills are produced). Agency funds are not budgeted since they are custodial in nature and do not involve measurement of results of operations.

The Comprehensive Annual Financial Report (CAFR) shows the status of the City's finances on the basis of "Generally Accepted Accounting Principles" (GAAP). This conforms to the way the City prepares its budget. Formal budgets exist for all funds and fund types, except agency funds and account groups, but the budget-to-actual comparison reports are prepared only for the governmental fund types (General, Special Revenue, and Capital Projects).

The Annual Budget and Work Program is a fiscal plan which presents the services which will be provided to the community and the funds needed to perform these services. The type and level of service is defined by the use of program objectives, which are further defined by performance measures. The Mayor is responsible for formulating the fiscal plan and presenting it to the City Council for approval and adoption. The key steps and dates in this process for the 2012 Budget and Work Program are described below:

### 1. Budget Preparation Package, June 2011

The budget preparation package was distributed to all Department Directors and Division Heads. The package included budget preparation software. In addition, target budgets were set for each fund and/or program. The target budget excluded service expansion requests and new personnel requests. These items are considered separately. Training was conducted on an individual basis with the Budget Staff and Department Directors and Division Heads, as requested.

### Capital Requests, September - October 2011

Five Year Capital Improvements requests were submitted for review and prioritization. Approval of the requests were based on a review of prioritized lists by Department Directors and Budget staff to see if original cost and continuing costs were within the available funding range. All capital items with a cost that exceeds \$10,000 appear in the Five Year Capital Improvements Programs.

### 3. Budget Work Papers Submitted by Division Heads, July 2011

The Division Heads returned budget submissions requesting 2012 funding to the budget office. The budget office then verified that budget submissions were correct and within specified targets.

### 4. Analysis of Each Proposed Program Budget, August 2011

During this period, meetings were conducted with each Department Director. At these meetings, the submitted program budgets were evaluated in their entirety and additions and cuts were made to balance the funds with the service requirements. The 2012 Proposed Budget and Work Program was the result of this process.

### 5. Consideration and Approval of the Budget, Beginning to Adoption 2011

The proposed budget was presented to the Mayor in November. The Mayor will present the comprehensive Proposed 2012 Budget and Work Program to the City Council on November 8. Public discussions on the budget were conducted during November and December. The 2012 Budget was adopted by City Council on December 6, 2011.

### 6. Implementing the 2012 Budget, January 2012

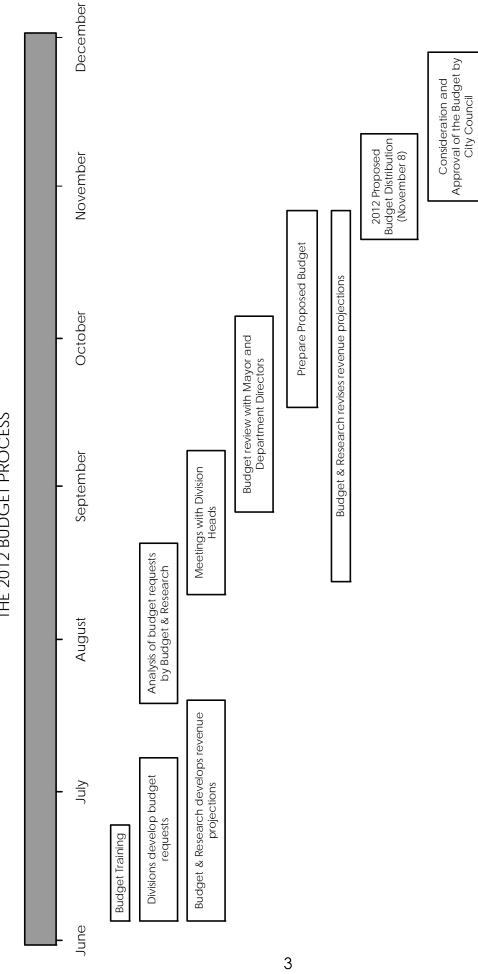

Work papers are created and distributed to allow each division head to split their budget into the projected funding level needed for each month. These work papers are collected and input into the computer system to assist in the control of the adopted budget throughout 2012.

### 7. Adjusting the 2012 Budget, Throughout 2012

The budget may be adjusted throughout 2012. Depending on the amount of the adjustment, approval may come from the Budget Director, Finance Director, Mayor or the City Council. A detailed explanation of the Budget Adjustment Policy is listed on pages 7 and 8.

The public meetings throughout the budget process are considered to be an essential part of the budget process as they are designed to solicit feedback from the City Council and public on City operations and services. In accord with continuing efforts to apprise the public of City activities, the Adopted 2012 Budget and Work Program is made available for review by all interested persons at the Fayetteville Public Library and the City Clerk's Office. In addition, a downloadable version of the budget is found on the City's web site. Public notification of this information is made in a local newspaper and on the Cable Access Television channel. As always, the public is invited to attend all meetings, retreats, and hearings regarding consideration of the Budget.

# CITY OF FAYETTEVILLE, ARKANSAS THE 2012 BUDGET PROCESS

### CITY OF FAYETTEVILLE, ARKANSAS FINANCIAL POLICIES

The purpose of this section is to present the policies that the City follows in managing its financial and budgetary affairs. These are general statements of policies, which represent long-standing principles, traditions, and practices that have guided the City in maintaining financial stability.

### **REVENUE POLICY**

- The City will strive to maintain a broad and diversified revenue base that will equitably distribute the burden of supporting City services and will protect the City from short-term fluctuations in any one revenue source.
- The City will actively support economic and industrial development recruitment and retention efforts to provide for a solid revenue base.
- The City will maintain timely collection systems and implement necessary enforcement strategies to collect revenues from available sources.
- The City will establish user fees and charges for services, when feasible, at levels related to the cost of providing the services. The City will review the fees and charges on a periodic basis to determine modifications needed to keep pace with the cost of providing the services.
- The City will establish, when feasible, selfsupporting enterprise funds and internal service funds in which a relationship between revenues and expenditures clearly exists.
- The City will project revenues on a conservative basis so that actual revenues will consistently meet or exceed budgeted revenues.
- The City will maintain a budgetary control system and will prepare reports that compare actual revenues to budgeted amounts.
- The City will review annually and revise, where necessary, its cost allocation formula.

 The City will limit the designation of General Fund revenues for specified purposes to maximize flexibility in budgeting and revenue utilization.

### **EXPENDITURE POLICY**

- Basic and essential services provided by the City will receive first priority for funding.
- The City will establish performance measurements for all program areas, when feasible. These measures will reflect the demand, workload capability, and projected outcomes for the program to accomplish its objectives.
- The City will adopt a balanced budget, by fund, for all funds maintained by the City, in which total anticipated revenues must equal or exceed the budgeted expenditures for each fund. However, if this cannot be attained, the City will utilize unallocated fund reserves, which have been carried forward from prior years.
- The City will maintain a budgetary control system to ensure adherence to the adopted budget and will prepare reports that compare actual expenditures to budgeted amounts.
- The City will refrain from budgeting nonrecurring or one-time revenue for ongoing expenses.
- The City will provide access to medical, dental, life, and long-term disability insurance for its employees. The cost for these benefits will be a shared responsibility between the City and its employees.

 The City will provide access to appropriate retirement plans for its employees. The City will make contributions for eligible employees at the percentage defined for each of the respective retirement plans.

### **DEBT POLICY**

- The City will maintain a policy of full disclosure on financial reports and bond prospectus.
- The City will maintain communications with bond rating agencies and continue to strive for improvements in the City's bond rating.
- The City will pay for all capital projects and capital improvements on a pay-asyou-go basis using current revenues whenever possible. If a project or improvement cannot be financed with current revenues, long-term or short-term debt or capital leases will be recommended.
- The City will refrain from issuing long-term debt for a period in excess of the expected useful life of the capital project.
- The City will use special assessment revenue or other self-supporting bonds instead of general obligation bonds, when feasible.
- The City will seek refinancing of outstanding debt if it is determined that the City will benefit by reduced interest expense over the remaining life of the bonds of at least 3% of the principal being refunded.
- The City will require that General Fund and Street Fund debt service shall not exceed 10% of annual general and road tax revenues and the principle amount of General and Street Fund debt shall not exceed 5% of assessed taxable property.

 Outstanding short-term debt and Amendment 78 debt obligations combined shall not exceed 5% of the City's taxable real property.

### **RESERVE POLICY**

- The City will maintain a minimum reserve of sixty (60) days of annual regular general fund operating expenditures for the General Fund in Undesignated Fund Balance. The minimum unreserved General Fund Balance cannot be reduced without specific City Council Resolution.
- The City will maintain a minimum reserve of at least 10% of current year operating expenditures for the Street Fund in Undesignated Fund Balance. If existing reserves exceed the required level, such funds may be used to provide for nonrecurring expenditures. The City will use monies in the 10% reserve only in times of emergency or fiscal and economic hardship.
- The City will attempt to maintain a cash and investments balance of not less than 10% of current year operating expenditures for all Enterprise Funds.
- The City will maintain a Shop Fund reserve necessary to fund the replacement and expansion of the City's vehicles and equipment.

# INVESTMENT AND CASH MANAGEMENT POLICY

- The City will deposit all receipts on a timely basis.
- The City will strive to maximize the return on its investment portfolio without jeopardizing principal amounts.
- The City will limit its investments to the types of securities provided for by Arkansas statutes.

- The City will diversify its investments by maturity date to protect against market fluctuations.
- The City will purchase securities from qualified institutions based on competitive bids in an effort to obtain the highest available rates.

### CAPITAL IMPROVEMENT POLICY

- The City will prepare and update, as needed, a five-year Capital Improvements Program (CIP), which will provide for the orderly maintenance, replacement, and expansion of capital assets.
- The CIP will identify long-range capital projects and capital improvements of all types, which will be coordinated with the annual operating budget to maintain full utilization of available revenue sources.
- When preparing the CIP, the City will seek to identify all viable capital projects and capital improvements required during the subsequent five-year period. These projects and improvements will be prioritized by year and by funding source. Every attempt will be made to match projects and improvements with available funding sources. Future operating costs associated with a project or an improvement will also be given consideration in the establishment of priorities.
- The City will seek Federal, State, and other funding to assist in financing capital projects and capital improvements.
- The City will seek input from the public by holding public hearings in relation to the establishment of projects and project priorities.
- The City will incorporate the reasonable findings and recommendations of the other City Boards, Commissions, Committees, and Citizen task forces, as they relate to capital projects and improvements.

### FINANCIAL REPORTING POLICY

- The City's accounting system will maintain records in accordance with accounting standards and principles outlined by the Governmental Accounting Standards Board (GASB), Financial Accounting Standards Board (FASB), and the State of Arkansas.
- The City will employ an independent accounting firm to perform an annual audit of the City's finances and make the annual audit available to all required and interested parties. The audit shall be completed and submitted to the State of Arkansas within 210 days of the close of the fiscal year.
- The City will produce monthly and quarterly financial statements reporting the current periods' activity for all funds maintained by the City.
- The City will maintain an internal audit function, which will be charged with adopting and routinely monitoring internal controls of the City.
- The City will prepare an annual budget document that provides a basic understanding of the City's planned financial operations for the coming fiscal year. Copies of the proposed and final budget will be made available to all interested parties and opportunities will be provided for citizen input prior to final decisions on the budget.
- The City will seek annual renewal of the Government Finance Officers Association's (GFOA) Certificate of Achievement for Excellence in Financial Reporting and the Distinguished Budget Presentation Award.

### CITY OF FAYETTEVILLE, ARKANSAS ADMINISTRATIVE PROCEDURES TO ADJUST THE APPROVED BUDGET

### **PURPOSE:**

The procedures outlined in this section define, standardize, and set forth responsibilities for budget adjustments.

### **DEFINITION AND EXPLANATION:**

During the fiscal year needs arise for expenditure budget adjustments to enable divisions to adapt to changing conditions. There are two types of expenditure budget adjustments which can be defined as follows:

- 1) **Budget Adjustment** this is a transfer from one category within a fund budget to another category. The fund total does not change.
- 2) Budget Amendment this is an addition to the overall budget total of the fund. It increases the total expenditure amount authorized for the fund. Any budget amendment must be supported by an increase in revenue or come from available fund balance.

### DEPARTMENT DIRECTORS AND DIVISION HEADS RESPONSIBILITIES:

All Department Directors and Division Heads are mandated to stay within each operational program budget as adopted and to stay within the total budget for each capital project. Neither the Accounting or Purchasing Divisions will process payments or purchase orders, which will cause a program or capital project to be over the annual budget amount.

Each operational division is grouped into programs (i.e. Engineering - Administration, Engineering - Plans & Specifications, Engineering - Right-of-Way, etc.). Budget adjustments will be required in the following instances:

- When the budgeted amount <u>per operational program</u> is exceeded (an offsetting adjustment must be made from another operational program or fund balance).
- 2) When the budgeted amount for <u>a capital project</u> is exceeded (an offsetting adjustment must be made from another capital project, another program, or fund balance).

Requested adjustments to an operational program must be submitted on a budget adjustment form with sufficient justification for the need. Any changes in the personnel services category must meet the City's policy for raises, promotions, and staff increases.

### **BUDGET ADJUSTMENT APPROVAL PROCESS:**

### **Budget Amendments**

1) All budget amendments must be approved by the City Council other than mandatory redemptions and other expenditures delegated to a Bond Trustee via a bond trust agreement.

### **Budget Adjustments**

- 1) Budget adjustments within categories, within divisions of a fund, can be made with the approval of the Budget Director (see page 10 for a division listing).
- 2) Budget adjustments between categories within a division of a fund can be made with the approval of the Budget Director and Finance Director or Chief of Staff.
- 3) Budget adjustments within the personnel services category between departments within a fund will be approved by the Budget Director, the Finance Director, and the Chief of Staff.
- 4) Budget adjustments between categories within an approved project will be approved by the Budget Director.
- 5) All other budget adjustments must be approved by the City Council.

### **BUDGET AMENDMENT REPORTING:**

As a matter of practice, staff will provide information regarding Budget Amendments to the City Council on a quarterly basis.

### CITY OF FAYETTEVILLE, ARKANSAS BUDGET ORGANIZATIONAL STRUCTURE

### **FUND**

In governmental accounting, a fund is a fiscal and accounting entity with a self-balancing set of accounts, created and maintained for a particular purpose. It has transactions subject to legal or administrative restrictions. A separate budget is provided for each fund.

#### **ACTIVITY**

Activities are the major groups of items which are functionally related, regardless of the Department or Division that is responsible. This type of classification provides a useful Budget summary that is consistent even though changes in the organizational structure may occur.

### **DEPARTMENT**

Departments are the major organizational sub-divisions. They have a broad overall purpose. The City of Fayetteville is organized into eight operating departments: Police, Fire, Parks & Recreation, Utilities, Development Services, Communications & Marketing, Transportation Services, and Finance & Internal Services. Each Department, except Police and Fire, has a director who reports to the Chief of Staff.

### **DIVISION**

Divisions are the major operational areas of the City. Each Division has been assigned to one of the Departments listed above according to the type of activity it performs. For example, the Solid Waste & Recycling Division is part of the Utilities Department. A listing of divisions is on the following page.

### **PROGRAM**

Programs are the operating units within the Division. Each program represents a specific type of activity within its Division aimed at providing a service for which the City is responsible. For example, the Solid Waste & Recycling Division contains the following programs: Administration, Commercial Collections, Residential Collections, Commercial Drop Box Collections, Transfer Station, Recycling, and Composting.

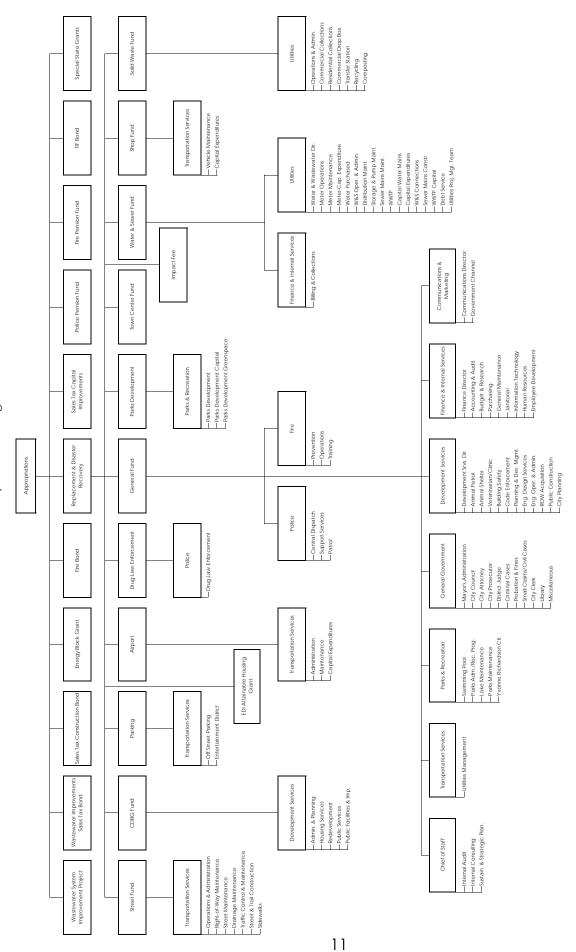

### **CATEGORY**

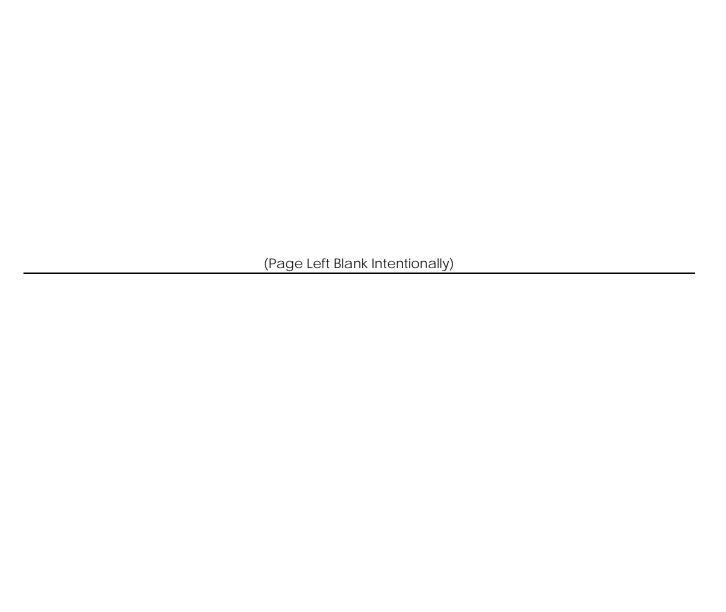

Within each program, each expenditure item is grouped into a category of related expenditures. The budget for each program is listed by categorical total. Examples of a category include: Personnel Services, Materials and Supplies, Services and Charges, Maintenance, Motor Pool Charges, Capital, Transfers to Outside Agencies, Cost Reimbursements, and Operating Transfers.

### LISTING OF DEPARTMENTS AND DIVISIONS

# Consolidated Fund-Department-Program Structure

# City of Fayetteville, Arkansas Chart of Governmental Fund Types

As noted by the chart above, the City utilizes all four (4) major Governmental fund types: General, Special Revenue, Debt Service, and Capital Projects.

<u>General Fund</u> - General fund is the general operating fund of the City. It is used to account for all financial resources except those accounted for in other funds.

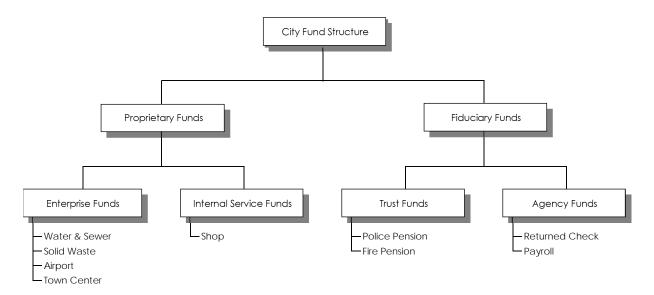

<u>Special Revenue Funds</u> - Special Revenue funds are used to account for the proceeds of specific revenue sources, which are designated or required to finance particular functions or activities of the City.

<u>Debt Service Funds</u> - Debt service funds are used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest and related costs other than debt service payments made by enterprise funds.

<u>Capital Projects Funds</u> - Capital projects funds are used to account for financial resources to be used for the acquisition and construction of assets of a relatively permanent nature other than those financed by proprietary funds.

As a note of explanation for the following combined statements, the revenues are listed by major source and the expenditures are listed by major department or service. The operation transfers are listed both in and (out).

# City of Fayetteville, Arkansas Chart of Proprietary and Fiduciary Fund Types

As noted by the chart above, the City utilizes the Enterprise and Internal Service funds in the Proprietary fund type and the Trust and Agency funds in the Fiduciary fund type.

<u>Enterprise Funds</u> - Enterprise funds are used to account for operations (A) that are financed and operated in a manner similar to private business enterprise, where the intent of the governing body is that the costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (B) where the governing body has decided that periodic determination of revenues earned, expenses incurred and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes.

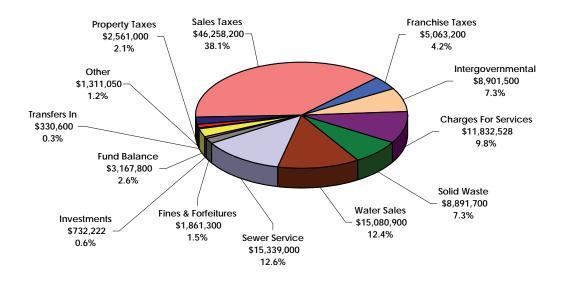

<u>Internal Service Funds</u> - Internal service funds are used to account for the financing of goods or services provided by one division of the City to other divisions of the City, on a cost reimbursement basis.

<u>Irust Funds and Agency Funds</u> - Trust funds and agency funds are used to account for assets held by the City in a trustee capacity or as an agent for individuals, private organizations, other governments and/or other funds. Trust funds are accounted for in essentially the same manner as proprietary funds since capital maintenance is critical. Agency funds are custodial in nature and do not involve measurement of results of operation.

In reference to the following combined statements, the revenues are listed by major source and the expenses are listed by major department or service. Also shown are depreciation, non-operating revenue and (expenses), transfers in and (out), and net income.

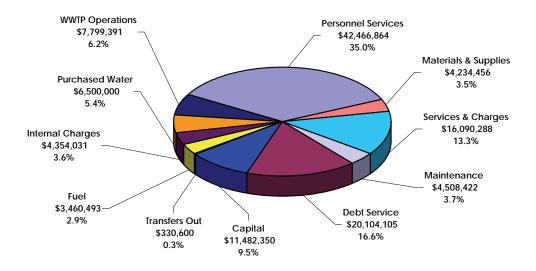

### City of Fayetteville, Arkansas

### Sources of Funds for 2012

\$121,331,000

### Uses of Funds for 2012

\$121,331,000

Note: The Sources of Funds chart includes revenues from all City funds. The Uses of Funds chart includes expenditures from all funds including capital expenditures in the Proprietary fund types. In compliance with GAAP, Proprietary fund balances do not reflect capital expenditures.

Fire Pension	1,542,283	1,542,283	1,477,500	1,480,400	1,470,000
-	26,363,474	27,641,908	30,280,644	27,439,200	28,034,800
Total - All Funding Sources \$	117,025,206 \$	119,461,928 \$	120,467,265 \$	118,514,200 \$	121,331,000

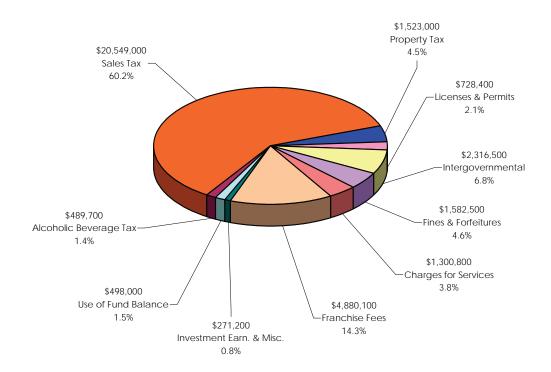

This comparison of adopted budgets is included to show the scope and growth of City operations in a multi-year format. This presentation is traditional but continues to include interfund transfers. Rather than restating all of the budgets, it is recommended that emphasis be placed on the significant entries, which are the individual funds. A more detailed discussion of each individual fund is included in the specific section devoted to that fund.

### General Fund (1010)

#### **Revenues**

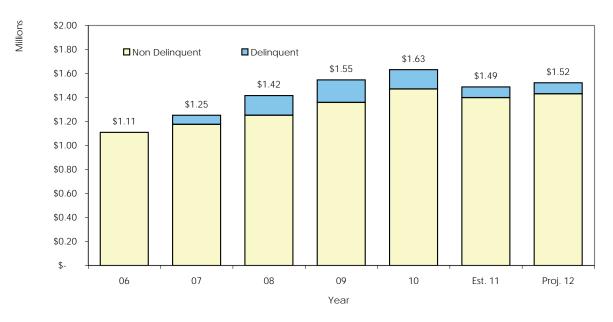

Total estimated revenue available in 2012 to support the General Fund is approximately \$33.6 million. These overall General Fund Revenue projections are based on historical trend data, expected population increases, and current performance of the national, state, and local economies and statistical information. In addition to those revenue sources, the 2012 Budget will require the use of \$498,000 from reserves (fund balance).

Sources of Funds for 2012 \$ 34,139,200

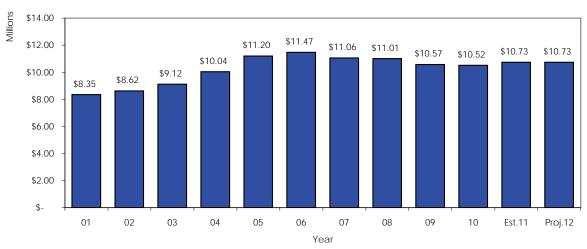

<u>Property Taxes:</u> Property Tax revenue makes up 4.5% of total General Fund Revenue. The tax rate currently approved is 1.3 mils. 2012 revenue is projected to increase by 2.4% over 2011 estimated collections due to increased assessed value. 2006 marked the first year that Property Taxes were collected for General Fund operations since 1993 at which time the tax rate was at 3.8 mils. The City of Fayetteville has a discretionary limit of 5.0 mils, which is set by law. By law, millage decisions must be made by the end of October of each year by the City Council and filed with the County.

#### Property Taxes \$ 1,523,000

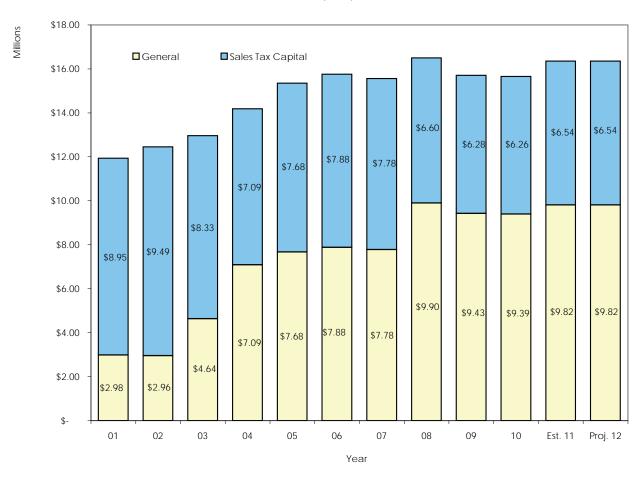

<u>County Sales Tax</u>: The largest source of General Fund revenue (31.9%) is the County Sales Tax. The City receives a prorated share (36.2%) of the 1% County Sales Tax based on population as of the most recent federal census. Sales Tax growth averaged 2.58% per year from 2000 to 2010. Budgeted 2012 revenue is projected to be flat compared to current 2011 estimated collections. The 2012 projection is based on past trends in view of the losses incurred due to the 2010 census.

County Sales Tax \$ 10,734,000

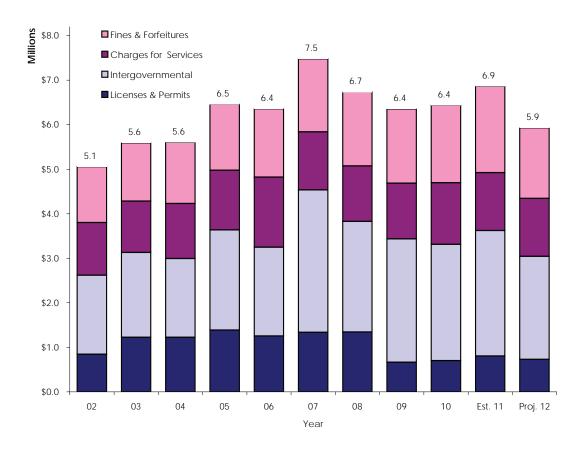

<u>City Sales Tax:</u> The second largest source of General Fund revenue is the City Sales Tax at 29.2% of total revenue. The 1% City sales tax revenue grew on average 3.1% annually between 2000 and 2010. However, 2011 revenue is estimated to be higher than 2010 actual by 4.5%. 2012 revenue is projected to be flat compared to estimated 2011. The 1% City Sales Tax revenue is divided between General Fund operations and capital. The current split for 2012, which began with the 2008 budget, is 60% for General Fund and 40% for Sales Tax Capital Improvements Fund.

### Total City Sales Tax Collected by Fund \$ 16,358,300

Other Revenues: Other Revenues (Licenses & Permits, Intergovernmental, Charges for Services, and Fines & Forfeitures) as a whole make up 17.6% of total General Fund revenue. Licenses & Permits mainly consist of Building Permits which are projected to be less in 2012 compared to estimated 2011 revenue due to a slow down in permitting. Inter-governmental revenues consist of State Turnback and State/Federal grants and are projected to be less in 2012 compared to estimated 2011 revenue. Charges for Services consist primarily of park fees, 911 reimbursements, and planning fees of which are expected to remain flat for 2012. Fines & Forfeitures revenues that consist of court fines are expected to be less over estimated 2011 revenue.

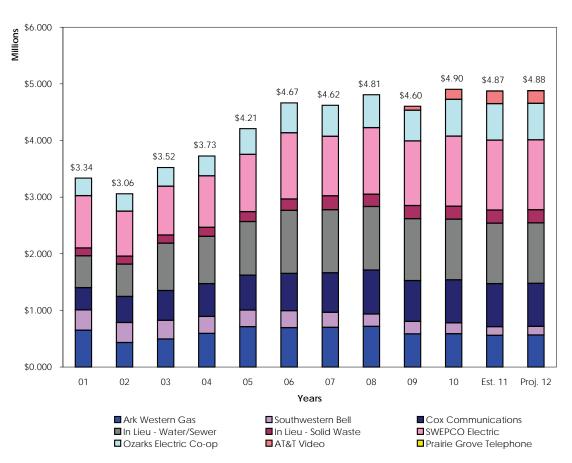

#### General Fund - Other Revenue

<u>Franchise Fees:</u> Franchise fees as a category makes up 14.5% of total General Fund revenue. The City collects franchise fees from all utility companies in Fayetteville for the use of City Rights-of-Way. All of the franchise fee agreements reflect a percentage of gross utility revenue generated. Although franchise fees are a direct cost of the utilities business, all utilities except AEP and the City of Fayetteville's Solid Waste and Water & Sewer Divisions show the fee as an additional item on the consumer's invoice.

Currently, Arkansas Western Gas pays 3% of annual sales before taxes on residential and commercial customers and 1% on industrial customers. AT&T and Prairie Grove Telephone pay 4% of all access line billing. AT&T Video and Cox Communications pay 5% of annual gross sales on everything except internet access revenue. The Water & Sewer utility pays 4.25% and the Solid Waste utility pays 3% on annual gross sales. AEP Electric and Ozarks Electric Co-Op pay 3% of gross revenues on domestic customers and 1% on industrial consumers. The 2012 projections are expected to equal 2011 collections.

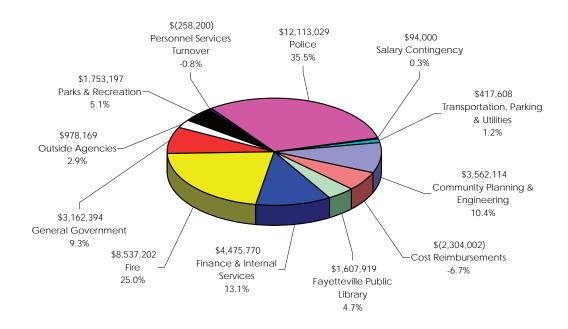

#### Franchise Fees

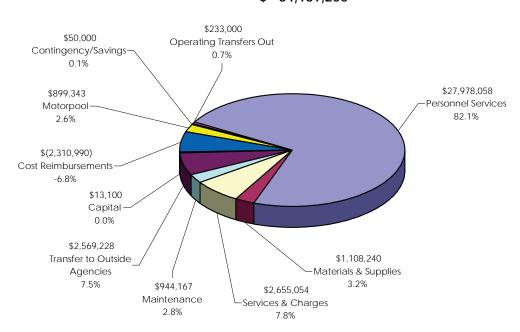

#### **General Fund Expenses**

Total uses of funds in 2012 for the City's General Fund totals \$34,139,200. The charts below show the total General Fund expenditure budget by operating department and expense category.

2012 Uses of Funds by Activity \$ 34,139,200

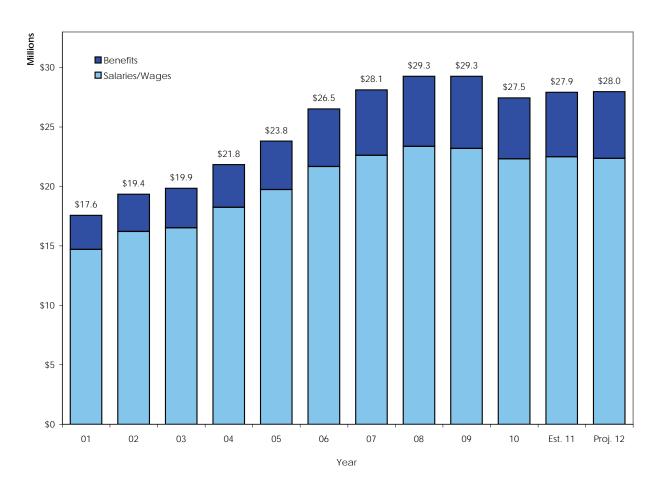

2012 Uses of Funds by Category \$ 34,139,200

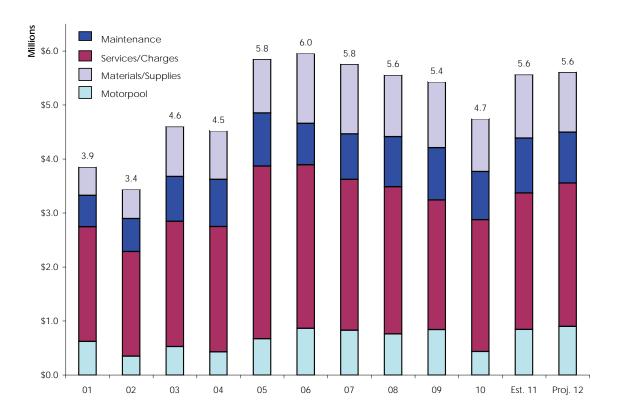

<u>Personnel Services:</u> Personnel Services represent the largest source (82.1%) of expense for the City's General Fund. Personnel Services include Salaries & Wages, Overtime, Insurance, Pension, and Worker's Compensation expenses. Since 2000, the Personnel Services category has averaged 5.35% per year from 2000 to 2008. However, due to a decline in revenues, wages were frozen at 2009 levels and no increases have been included in this budget.

#### **Personnel Services**

Other Expenses: Other expenses represent 16.4% of the General Fund expenditures for 2012. Other expenses represent the Maintenance, Services & Charges, Materials & Supplies, and Motor Pool categories. The Services & Charges Category includes contract services, publications and dues, etc. and represents 7.8% of the total General Fund budget. The Materials & Supplies Category includes copier/printing charges, minor equipment, fuel, and office supplies and represents 3.2% of the total General Fund budget. The Maintenance Category includes building and grounds maintenance, software maintenance, and various other small maintenance accounts and is 2.8% of the total General Fund budget. The Motorpool Category represents 2.6% of the total General Fund budget.

#### **Other Expenses**

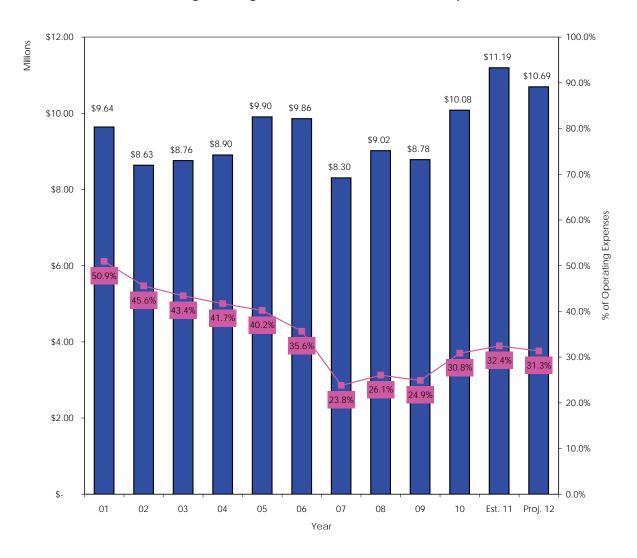

#### **General Fund Balance**

The 2012 Adopted Budget for the General Fund is balanced by using \$498,000 from reserves (fund balance). This would leave a projected ending undesignated fund balance of approximately \$10.7 million (prior to the minimum reserve requirement or any reserve for carry overs) at the end of 2012.

The amount of minimum reserves to be maintained in undesignated fund balance for General Fund is sixty (60) days (or 16.5%) of annual regular general fund operating expenditures. The General Fund designation requirement was approved by the Fayetteville City Council on November 5, 2002 with Resolution 174-2002 and currently amounts to \$5,650,000.

### Street Fund (2100)

The **Street Fund** is primarily financed by turnback revenues received from the State of Arkansas and turnback monies received from the County Road Millage Tax. These monies are utilized to maintain and repair City streets, rights-of-way, drainage, traffic control and maintenance, and City owned sidewalks.

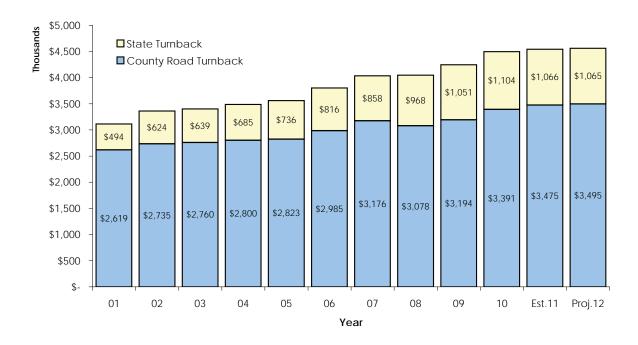

#### **Street Fund Revenues**

Revenues for Street Fund are primarily motor fuel taxes collected by the State of Arkansas (state turnback) and returned to the City on a per capita basis. The long term trend for state turnback is relatively flat. The per capita rate for Street Fund in 1995 was \$41.00 and in 2011 the per capita rate is \$47.23. Projections for 2012 are based on the per capita rate of \$47.50 from the State and calculated based on the 2010 census population of 73,580. As the City continues to grow, additional revenue sources will need to be identified to fund Street Fund activities. The City receives 80% of the road millage levied by the Quorum Court on real and personal property located within the City. The current 2011 county levy is 1.1 mil, with a maximum of 3.0 mil.

#### Sources of Funds for 2012 \$ 4,706,600

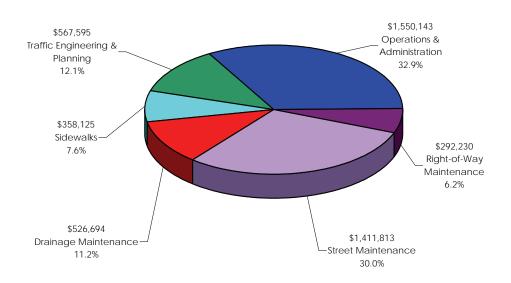

### **Street Fund**

#### **Street Fund Expenses**

The primary purpose of funds expended from the Street Fund relate to the maintenance, repair and construction of streets within the City of Fayetteville. Associated drainage maintenance activities as well as street sweeping are also programs supported by the Street Fund.

Uses of Funds for 2012 \$ 4,706,600

### Parking Fund (2130)

The **Parking Fund** accounts for funds received from meter revenues and parking lot rentals. These monies are expended for maintenance of parking lots. In 2010, a new program, Entertainment District Parking, was created that extended paid parking in the Dickson Street area. For 2012, this fund is expected to have a \$277,700 surplus which will be designated toward the future building of a parking deck.

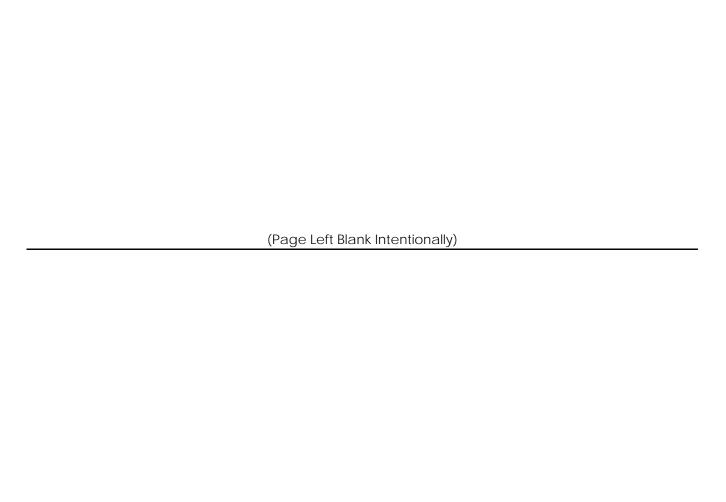

In 2010, the City Council approved a \$700,000 interfund loan from the Replacement and Disaster Recovery Fund to the Parking Fund for the purchase of equipment. This loan will be paid back from parking revenue within a five year period.

### City of Fayetteville, Arkansas 2012 Operating Budget Parking Fund (2130)

#### **Energy Block Grant Fund (2240)**

The **Energy Block Grant Fund** was received from the United States Department of Energy as part of the American Recovery and Reinvestment Act. These funds will be used to 1) Develop a green house gas (GHG) credit inventory for community and municipal operations; 2) This is to help reduce municipal GHG emissions 20% below 2006 levels by 2012; and 3) This is to help reduce community GHG emissions 7% below 1990 levels.

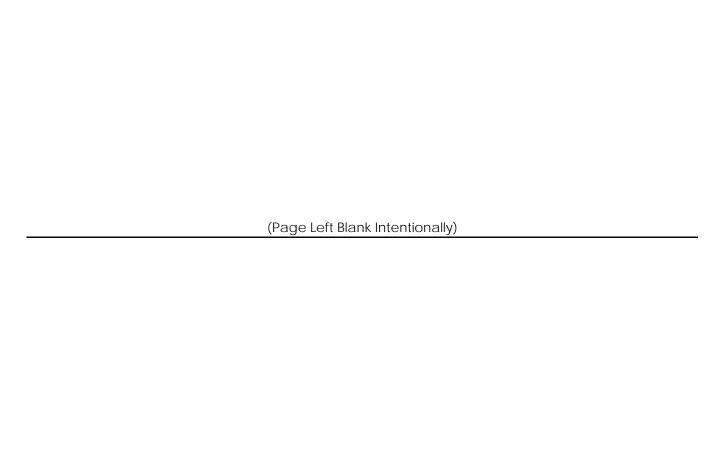

To achieve the above goals, funds will be invested in 1) Upgrading five city-owned buildings for energy efficiency. As the energy savings is realized it will be reinvested in other municipal buildings. 2) The City will develop a Community Revolving Loan Fund targeting non-profit organizations to reduce GHG. These loans will be repaid using energy savings. 3) The City will retrofit approximately 230 street, pedestrian and trail lights with LEDs. 4) A solar photovoltaic system will be installed at the new Fayetteville District Court Building to provide visible examples of renewable energy.

#### Parks Development Fund (2250)

The **Parks Development Fund** accounts for the revenue and expenditures of the Parks HMR tax approved by the voters in 1995. The \$2.4 million in planned expenditures for 2012 includes \$587,000 in capital improvements.

In 2010, a Citywide referendum was held and voters approved the use of these funds for maintenance activities. The use of Park Development Funds for promotional activities is no longer permitted. Due to these changes program rearrangements were made between the Parks Development Fund and General Fund.

The 1% HMR tax revenue has grown on average 6.3% annually since 2000. 2011 revenue was estimated approximately 4.42% higher than 2010. 2012 revenue is projected to be flat compared to estimated 2011.

#### Impact Fee Fund (2300)

The **Impact Fee Fund** accounts for the revenues and expenditures related to the collection of the water, wastewater, police, and fire impact fees. The intent of impact fee requirements is to ensure the new developments bear a proportionate share of the cost of capacity improvements and ensure that the proportional share does not exceed the costs of the demand for additional capacity that is reasonably attributable to providing these services and facilities to the use and occupancy of the new developments. Impact fee collections have declined dramatically from 2007 levels because of the fall in new development due to economic conditions.

#### **Impact Fee Collections**

### Replacement & Disaster Recovery Fund (4270)

The **Replacement & Disaster Recovery Fund** accounts for general government monies accumulated and used for the purchase of vehicles and equipment. By policy, the fund attempts to maintain a reserve of three million dollars for disaster recovery.

In 2010, the City Council approved a \$700,000 interfund loan from the Replacement and Disaster Recovery Fund to the Parking Fund for the purchase of equipment. This fund will be paid back from parking revenue within a five year period.

# Sales Tax Capital Improvements Fund (4470)

The **Sales Tax Capital Improvements Fund** accounts for the revenue and expenditures of the City's sales and use tax which is used for acquisition and improvement projects as well as equipment additions and replacements that are included in the City's Five-Year Capital Improvements Program. The \$6,702,600 in planned expenditures for 2012 includes \$6,695,300 in capital improvements.

Revenues for 2011 are expected to be up by \$394,300 compared to budget. Sales taxes for 2012 are budgeted to be flat compared to 2011 estimated collections.

### Water and Sewer Fund (5400)

The **Water & Sewer Fund** accounts for the revenue sources as well as the operation and maintenance expenses of the City's water and sewer system. This includes water purchases from Beaver Water District, all water and sewer functions, the operation of the wastewater treatment plants, meter and backflow operations, and billing and collections. The 2012 Budget is predicated on a break even basis.

#### **Water & Sewer Fund Revenues**

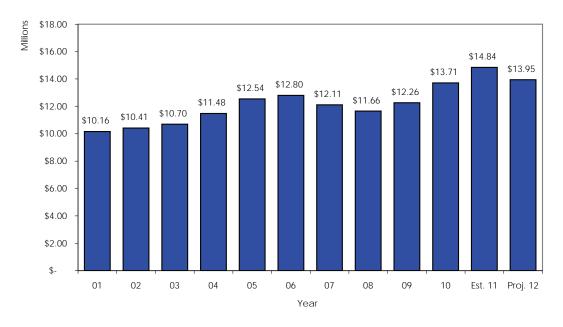

For 2012, the Water & Sewer Fund is projected to have an operating gain of \$5,507,000 before capital expenditures. City Council approved water and sewer rate increases in 2008 which included incremental increases in 2009, 2010, and 2011. The revenue projections reflect the phased rate adjustments. Water usages in 2008 and 2009 were far under projections due to unusually wet conditions. In 2011 usage was above projections due to drought conditions during the summer months. Therefore for fiscal 2012, usage projections are based on 2010 consumption.

### Sources of Funds for 2012 \$ 30,908,000

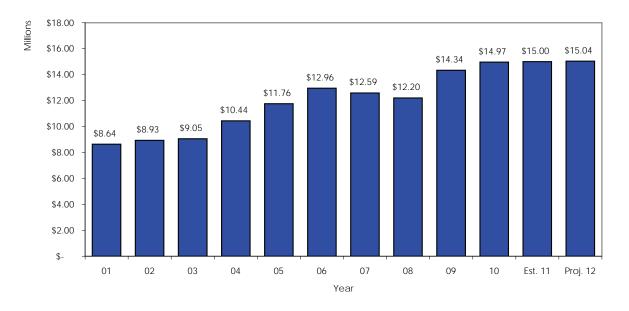

<u>Water Sales:</u> Water sales revenue is based on metered customer usage of water and is one of the primary sources of revenue for the Water & Sewer Fund. The budgeted revenue for 2012 shows a decrease over estimated 2011 revenue due to unusually dry conditions experienced during the summer months.

#### **Water Sales**

<u>Sewer Charges:</u> Sewer service charge revenue is based on metered customer usage of water and is the other primary source of revenue for the Water & Sewer Fund. The budgeted revenue for 2012 is projected to be approximately \$338,000 over estimated 2011.

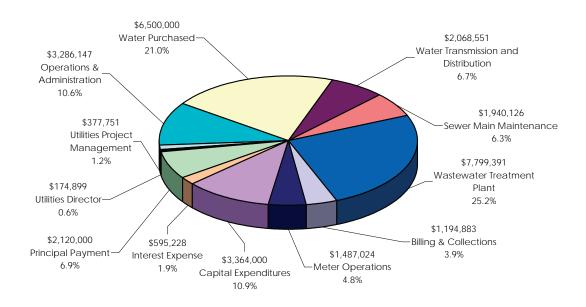

#### **Sewer Service**

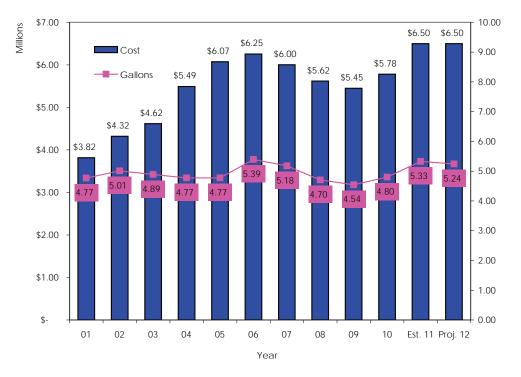

#### **Water & Sewer Fund Expenses**

The wastewater treatment plant operations budgeted for 2012 represents the largest expenditure in the fund at \$7.8 million. This represents 25.7% of the total operating expenses. The water purchases are budgeted at \$6.5 million, which represents 21.4% of total operating expenditures. Water purchase rates increased two cents per 1,000 gallons in October 2011 and will increase the same rate in October 2012.

Use of Funds for 2012 \$ 30,908,000

#### **Water Purchases**

### Solid Waste Fund (5500)

The **Solid Waste Fund** is responsible for the operation of the City's solid waste collection and disposal, transfer station, recycling program, and composting program. Revenues for the fund are obtained from fees levied for trash collection, recycling revenue, and container sales or leases. During the end of 2009, the operation of the transfer station, which had previously been contracted out, was brought in house. This budget reflects changes needed to continue that operation at the City. After capital expenditures, the fund will have a loss of \$821,300. However, there are more than sufficient reserves to accommodate the expenditures.

### **Solid Waste Fund Revenues**

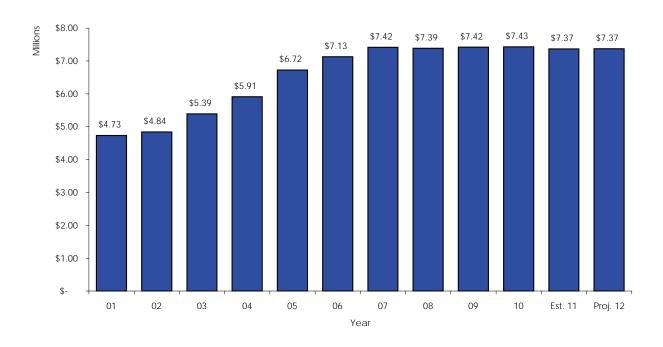

For 2012, the Solid Waste Fund sources of funds are budgeted at \$9,950,100. Solid Waste fees make up the largest source of revenue (74.2%).

### Sources of Funds for 2012 \$ 9.950,100

<u>Solid Waste Fees:</u> Solid Waste Fee revenue has increased approximately 4.82% (with 2007, 2008, and 2009 relatively flat) annually from 2000 to 2010. The 2012 revenues are projected to be flat over estimated 2011.

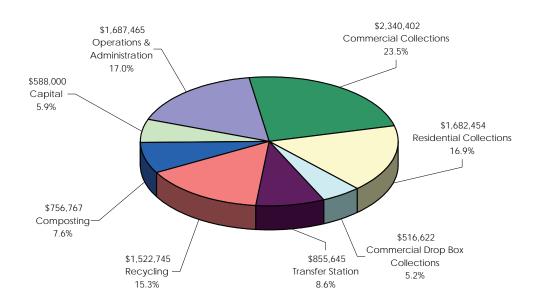

#### **Solid Waste Fees**

#### **Solid Waste Fund Expenses**

Expenses for the Solid Waste Fund are budgeted at \$9,950,100 for 2012. The commercial collections program and related activity make up the largest segment of the budget.

Uses of Funds for 2012 \$9,950,100

### Airport Fund (5550)

The **Airport Fund** provides for the operation and maintenance of the City's municipal airport, Drake Field. The Airport Fund's revenue is generated from rents and leases. In 2012, the Airport Fund is projected to use reserves of \$91,000 before depreciation.

#### **Airport Fund Revenues**

For 2012, the Airport Fund sources of funds are budgeted at \$768,000. Rents and Leases make up the largest source of revenue (66.6%).

Sources of Funds for 2012 \$ 768,000

#### **Total Operating Revenue**

This chart shows all of the Airport Fund's operating revenues by type. Primary revenues are comprised of Rents and Leases. During the fourth quarter of 2001, the City took over the Fixed Based Operator (FBO) functions and sold aviation fuel as it became a General Aviation airport. The selling of fuel continued until the last part of 2005 when the City contracted the operation of the FBO to an external company. Currently the Airport Fund's major source of revenue is through the rental of corporate and private T-Hangars and rental of the airport terminal building to a fueling and line services operation, two pilot training schools, the U.S. Post Office, a florist, a caterer, and office space to a wildlife biologist and an advertising firm.

### **Shop Fund (9700)**

The **Shop Fund** is an internal service fund that provides for all the acquisition and maintenance of equipment and vehicles utilized by the City's operating divisions. The Shop Fund's source of revenue is from charges to other City operating funds based on equipment and vehicle usage. Increases in 2012 operational costs can be attributed to additional parts and supply purchases, fuel expense, insurance, and contract services for repairs that cannot be performed by staff. These operational increases are a result of fleet expansions and increased equipment usage. On a cash basis, expenditures will exceed revenues after capital for 2012. The shortfall will be covered by cash reserves which were accumulated in the prior periods for this purpose.

#### **Shop Fund Revenues**

Shop Charges (Replacement Charges, Motorpool Charges, Shop Overhead Charges, Shop Overhead Insurance Charges, and Fuel Charges) as a whole make up 99% of total Shop Fund revenue and are budgeted in 2012 at \$7,409,500. Replacement Charges (\$3,373,000) is the amount Fleet Operations collects to purchase replacement vehicles and equipment. Replacement charges for General Fund vehicles were waived in 2010 to reduce expenses due to the economy. However, necessary replacement charges were put back in the General Fund Budget for 2011. Motorpool Charges (\$1,595,500), Shop Overhead Charges (\$495,400) and Shop Overhead Insurance Charges (\$112,000) are the monthly fees user divisions pay to the Shop Fund for the on-going maintenance that is provided for the life of the vehicles and equipment. Fuel Charges (\$1,806,000) is the revenue received from charging out the cost of gasoline to the user divisions.

#### **Shop Charges**

# CITY OF FAYETTEVILLE, ARKANSAS CAPITAL IMPROVEMENTS PROGRAM

Since 1988, the City of Fayetteville has produced a five year Capital Improvements Program (CIP). The CIP examines the infrastructure and capital needs of the City for the next five years. The CIP is reviewed and updated biennially to reflect the changing needs of the community and changes in available funding for financing capital projects. The CIP should be considered as a financial planning tool that lists the City's capital improvement projects and schedules the projects for funding and implementation. The CIP should also be considered one of the primary policy making instruments utilized by the Mayor and City Council. The City's practice has been to adopt the CIP for the forthcoming five year period and then incorporate the projects for the following two years into the next two budget processes.

The subsequent pages provide a summary of the 2012 Capital Improvements Program listed by improvement area, followed by a listing of the capital projects which the City plans for 2012.

#### 2012 Capital Improvements (By Funding Source)

		2012 Projects	2012 Adopted
Project Description		2010-2014 CIP	 Budget
Impact Fee Fund:			
Police Impact Improvements	\$	272,000	\$ 104,000
Water Impact Improvements		771,000	446,000
Wastewater Impact Improvements		514,000	287,000
Fire Impact Improvements		265,000	84,000
		1,822,000	 921,000
Parks Development Fund:			
Regional Park Development		321,000	216,000
Wilson Park Improvements		0	253,000
Neighborhood Park Development		100,000	109,000
Gulley Park Improvements		230,000	0
Brooks-Hummel Nature Preserve Land Purchase		73,000	77,900
Other Park & Safety Improvements		0	20,000
	,	724,000	 675,900

# CITY OF FAYETTEVILLE, ARKANSAS CAPITAL IMPROVEMENTS PROGRAM DIRECTIONAL INFORMATION

#### **Introduction**

The Capital Improvements Program (CIP) for the City of Fayetteville examines the infrastructure and capital needs of the City for the next five years. The CIP will be reviewed and updated on an annual basis to reflect the changing needs of the community and changes in available monies for financing capital projects. The City's philosophy concerning the use of the CIP is that it should be considered as a financial planning tool that lists the City's capital improvement projects, places the projects in a priority order, and schedules the projects for funding and implementation. The CIP should be considered as a major policy tool for the Mayor and City Council.

#### Capital Improvement Policy

The CIP is approached as a valuable tool to be used in the development of **responsible** and **progressive** financial planning. The program is developed in accordance with the financial policies of the City. The policies and the CIP form the basis for making various annual capital budget decisions and support the City's continued commitment to sound, long-range financial planning and direction. The City's official Capital Improvements Policy is as follows:

- The City will prepare a biennial update of a five year CIP, which will provide for the orderly maintenance, replacement, and expansion of capital assets.
- The CIP will identify long-range capital projects and capital improvements of all types, which will be coordinated with the annual operating budget to maintain full utilization of available sources.
- When preparing the CIP, the City will seek to identify all viable capital projects and capital improvements required during the subsequent five year period. These projects and improvements will be prioritized by year and by funding source. Every attempt will be made to match projects and improvements with available funding sources. Future operating costs associated with a project or an improvement will also be given consideration in the establishment of priorities.
- The City will seek Federal, State, and other funding to assist in financing capital projects and capital improvements.
- The City will incorporate the reasonable findings and recommendations of the City's Boards, Commissions, Committees, and Citizens' task forces as they relate to capital projects and improvements.
- The City will seek input on the establishment of projects and project priorities from the public by holding hearings.

#### What Projects Are in the CIP

Projects and their cumulative component areas totaling \$10,000 or more should be included in the CIP. Projects costing less than \$5,000 are not considered capital and are funded through program operating budgets. Projects that cost between \$5,000 and \$10,000 are handled through the budget process. Attempts will be made to fund these capital items through operating funds.

#### Projects in the CIP can include:

- obligations for labor and materials and contractors involved in completing a project
- acquisition of land or structures
- engineering or architectural services, professional studies, or other administrative costs
- expenses for City vehicles and equipment
- renovating or expanding City facilities, grounds, or equipment

#### **Financing**

The City finances capital improvements on essentially a pay-as-you-go basis utilizing revenue from the 1% City sales tax originally adopted in 1993, the 1% Parks Development (Hotel, Motel, Restaurant) sales tax adopted in 1996, and operating revenues from the Airport, Shop, Water & Sewer, and Solid Waste funds. The 1% City Sales Tax revenue is divided between General Fund operations and capital. The current split for 2011, which began with the 2008 budget, is 60% for General Fund and 40% for Sales Tax Capital Improvements Fund. Until 2008, the split as established in 2003 was equal. Prior to June 2003, the revenue was divided 75% for Sales Tax Capital Improvements Fund and 25% for General Fund. In addition, long-term debt is considered and utilized only when the City faces a project that is of such importance and sufficient financial magnitude as to warrant a bond issue.

The CIP is not a financing document in and of itself. Rather, the CIP is utilized as a planning document that places projects in the annual budget whereby funds are appropriated for them by the City Council. Prior to actual initiation of project work, required contracts are presented to the Mayor or City Council, as appropriate, for final approval of expending funds.

#### Project Cost Determination

All projects are first costed in current or 2009 dollars. Then a determination of the year the project is expected to start is made. Finally, a determination of the projected cost of the improvement is made by referring to the "Project Cost Table" that provides the inflation multiplier to be used for the project in the anticipated year.

#### Project Cost Table for CIP 2010-2014

#### **Inflation Recommendations**

3% factor - This factor should be used in calculating all project categories.

Year	3% Factor
2010	1.030
2011	1.062
2012	1.095
2013	1.129
2014	1.164

Example:

A street project that costs \$1,000,000 in 2009 dollars, which is expected to be done in 2010, would use the inflation factor of 1.030. To get the expected cost of the project in 2012 dollars, multiply \$1,000,000 by 1.095, which equals \$1,109,500.

#### **Priority Selection of Projects**

The adopted CIP will rely on priorities defined by the Mayor, City Council, community, and City staff. As always, criteria such as government imposed mandates, usefulness to the community, and impact on operational expenses will be reviewed in establishing priorities. A priority is assigned to each project by year and by funding source. Projects for which no funding is anticipated to be available will be placed on an "Unfunded Projects List," which will identify the cost of the project. This list identifies the project as being viable, but one for which no funding is presently available. Unfunded projects may be funded if actual revenue is above projected revenue, if costs on funded projects are below budget, or if another funding source is identified.

The Parks and Recreation Advisory Board, Airport Board, City Council Street Committee, City Council Water & Sewer Committee, and City Council Equipment Committee meetings all provide committee and public input and guidance regarding parks, streets, bridge and drainage improvements, water and sewer improvements, and equipment purchases planned for the next five years.

### City of Fayetteville, Arkansas 2012 Capital Projects Summary

		Sales Tax Capital Improvements Fund	Special Revenue Funds	Enterprise Funds	Shop Fund	Total

Project Title & Description	2012 Budget
Parking Fund (2130)	
Parking Improvements (9130)  Parking Lot Improvements and Overlays (06001): The City currently has 12 public parking solution and one municipal parking deck that are in the Downtown Square and Dickson Street areas. These are all asphalt surface lots that periodically require general maintenance such as crack seal, seal coat, re-striping, pot hole patching, and bumper block replacement. These lots also require a complete asphalt overlay on a less frequent basis. This parking lot maintenance schedule will provide an overlay of one parking lot annually and general maintenance of the other lots as needed.	28,000
Parking Improvements (9131)  Parking Lot Improvements and Overlays - Entertainment District (11009): The City currently has public parking lots that are in the Entertainment District. These are all asphalt surface lots that periodically require general maintenance such as crack seal, seal coat, re-striping, pot hole patching, and bumper block replacement. These lots also require a complete asphalt overlay on a less frequent basis. This parking lot maintenance schedule will provide an overlay of one parking lot annually and general maintenance of the other lots as needed.	10,000
Total Parking Fund Projects:	38,000
Parks Development Fund (2250)	
Parks Development Capital (9255)  Regional Park Development (02002): The Parks and Recreation Master Plan recommends the development of a Regional Park based upon data from public meetings, citizen survey results, a one day steering committee meeting, and interviews with public officials, staff, and community leaders. Possible facilities include baseball, soccer, and softball complexes, as well as trails, tennis courts, sand volleyball courts, pavilions, picnic tables/grills/benches, disc golf, water park, amphitheater, and multi purpose fields. Park facilities would be developed on a priority basis depending upon public desires. With the request for the Lewis Soccer Complex to be returned to the University of Arkansas, there is an urgent need to relocate this facility.	216,000
Brooks-Hummel Nature Preserve Land Purchase (07027): The City purchased 13.75 acres located north of the Lake Lucille Spillway in 2007 for a principal amount of \$495,000 with an interest rate of six percent annually for five years on the unpaid balance. The City agreed to sell 1.89 acres to the United Presbyterian Church for \$68,000. The City also agreed to sell a conservation easement for the property to the Fayetteville Natural Heritage Association for \$179,500. This property has been named the Brooks Hummel Nature Preserve by Resolution Number 108-07. 2012 is the final payment for the purchase of this property.	77,900

Project Title & Description	2012 Budget
Wilson Park Improvements (08002): The Wilson Park swimming pool is in need of renovation. The Parks and Recreation Advisory Board discussed the importance of the presence of a pool at Wilson Park. The Board determined it would be best to renovate the existing pool and look at other sites such as the Regional Park to build a large water park partly due to inadequate parking at the current pool location. A structural analysis including a visual analysis and non-destructive testing of the pool and deck area has been completed. The study concluded the need for a full removal and replacement of the pool plaster coating, the pool deck covering and repairs of the box culvert. Construction of the project would begin after the pool is closed in September of 2012 to be completed for the pool opening in June of 2013. Staff is also working on the project scope and renovation of the pool office, dressing rooms, pool mechanical building, and concession stand for a projected cost for phase II of the pool renovations.	253,000
<b>Donations/Grants Contingency (07019):</b> Various donations are contributed throughout the year from sources such as the Rotary Club of Fayetteville, the Southeast Fayetteville Community Center Board, and individuals for park benches and other items. This project budgets for these donations.	20,000
Neighborhood Park Development (02013): This project consists of the development of an existing neighborhood park. The Mount Sequoyah Gardens park land is located in the southeast quadrant, on Summit Drive. The land was originally the site for two water tanks that supplied water to Fayetteville residents. The tanks were filled in and the greenspace was reclaimed. Additionally, a working greenhouse is located on the land and is used by staff to grow plants for public lands. A citizen has donated approximately \$2,410 to go towards the development of an overlook for the site. The project would include the construction of an updated entry drive with ADA parking, sidewalk, and overlook area. Staff will apply for an Arkansas Parks and Tourism Grant for assistance with this project in 2012.	98,000
Parks Development Greenspace (9256)  Neighborhood Park Development (02013): The flooding in April and May 2011 caused damage to the Stream Restoration Project on Niokaska Creek in Sweetbriar Park. An area near the water line that crosses the creek in the park was damaged. The flood also damaged rock structures and several soil mattresses.	11,000
Total Parks Development Fund Projects:	675,900
Impact Fee Fund (2300)	
Water & Sewer Improvements  Water Cost Sharing (02067): This project is to provide funding for projects that will be cost shared by the City and developers or individuals. Each project will be approved on a case by case basis. These projects maximize return on each dollar spent by the City because of combining work needed with work being funded by a developer or other entity. Cost shares may include looping water lines, up-sizing water and sewer mains above the required minimum, and extensions beyond the area and needs of a development.	446,000

Project Title & Description	2012 Budget
Sewer Cost Sharing (02067): This project is to provide funding for projects that will be cost shared by the City and developers or individuals. Each project will be approved on a case by case basis. These projects maximize return on each dollar spent by the City because of combining work needed with work being funded by a developer or other entity. Cost shares may include up-sizing water and sewer mains above the required minimum and extensions beyond the area and needs of a development.	287,000
Fire Radio Simulcast System - Fire/Police (08076): This project will increase the coverage area for the City of Fayetteville's radio system, which includes all city services and enables interoperability statewide. The current system has become inadequate due to growth of the City and maintenance/technical support for this system will become unavailable as the components of the system continue to age. Failure of this communication system is not an option. A simulcast system is imperative for public safety to maintain coverage in all areas. This system provides continuous coverage over a large region using a single set of frequencies. The primary site links information such as route control and audio information to each simulcast subsite. One of the important benefits of a simulcast site is it improves the radio frequency and in-building coverage in weak signal areas. Radio communication is the life line between public safety officers and services during emergency scenarios.	54,000
Fire Traffic Preemption Signals (08046): This request is for the purchase of 20 traffic preemption devices to be purchased and installed over the next five years at the busiest intersections in the City. By using these devices, fire apparatus can interrupt traffic signals during an emergency response by changing the signals to red on all sides of the intersection. The one direction being traveled by responding apparatus will be changed to green. Using these devices will help minimize the risk of accidents involving motorists and expensive apparatus. This project will aid in the City's efforts of planned and managed growth as well as improving the mobility of streets and intersections for all users. The ultimate result is maintaining the City's reputation as a safe community.	30,000
Police Improvements  Police Radio Simulcast System - Police/Fire (08076): This project will increase the coverage area for the City of Fayetteville's radio system, which includes all city services and enables interoperability statewide. The current system has become inadequate due to growth of the City and maintenance/technical support for this system will become unavailable as the components of the system continue to age. Failure of this communication system is not an option. A simulcast system is imperative for public safety to maintain coverage in all areas. This system provides continuous coverage over a large region using a single set of frequencies. The primary site links information such as route control and audio information to each simulcast subsite. One of the important benefits of a simulcast site is it improves the radio frequency and in-building coverage in weak signal areas. Radio communication is the life line between public safety officers and services during emergency scenarios.	104,000
Total Impact Fee Fund Projects:	921,000

Project Title & Description	2012 Budget
Sales Tax Capital Improvements Fund (4470)	
Sidewalk Improvements (02053): The goal of this project is to continue to improve the connectivity of the sidewalk system by constructing new sidewalk in selected areas and replacing or repairing sidewalks throughout the City. The City maintains existing sidewalks and has a large inventory of locations where sidewalks are needed. Developers are responsible for construction of sidewalks in new subdivisions and large scale developments. One of the City Council's priority goals is sidewalk connectivity at the current pace of installing approximately four miles of new sidewalk per year.	635,000
In-House Pavement Improvements (02052): This program provides for the systematic overlay of approximately 4.1% of existing asphalt streets within the City limits on an annual basis and includes curb cuts, curb and guttering, pavement striping, and preparation costs for the overlays. The goal of this project is to overlay a minimum of 150,000 square yards of asphalt each year. A street evaluation program determines overlay schedules based on existing conditions of streets. The resulting plan is presented to the Street Committee and City Council on an annual basis and implemented upon approval. Overlaying each street within a 15 year cycle is intended to optimize the longevity of roadways and minimize significant maintenance requirements, resulting in fewer complete renovations at a substantially greater cost.	1,865,000
<u>Trail Improvements</u> <u>Trail Development (02016)</u> : The goal of this project is to provide funding to increase production of the trails program throughout Fayetteville. This funding includes new trail development and asphalt replacement on existing trails. This will be accomplished through the use of personnel within the Transportation Division as approved by the City Council. This funding will allow production to proceed at a reduced cost, thereby providing for an increased rate of trail construction.	1,361,000
Street Improvements Old Wire Road - Mission to Crossover (10011): This project is to widen Old Wire Road, from Mission to Crossover from an existing two lane ditch section to two or three lanes with curb and gutter and sidewalks. The funding requested will be adequate for design and other preliminary costs. This will allow the improvements to be designed in preparation for right-of-way acquisition and construction to be funded with excess funds in the 2006 Bond Program or by a future bond issue, or by future sales tax allocations.	300,000
<b>Zion Road - Vantage to Crossover (12010):</b> This project is to widen and improve Zion Road, from the end of the improvements recently completed under the Bond Program to Crossover Road. This funding request is to allow design and other preliminary work to begin on the project. The construction will be funded with excess funds in the 2006 Bond Program or by a future bond issue, or by future sales tax allocations.	150,000

Project Title & Description	2012 Budget
Bridge & Drainage Improvements:  Stormwater Quality Management/Nutrient Reduction (02097): This project includes activities required by the City's agreement with Beaver Water District for nutrient reduction in the White River Watershed and for regulation in the City as required by the EPA National Pollutant Discharge Elimination System (NPDES) Phase II Stormwater Permit Regulations as administered by the Arkansas Department of Environmental Quality (ADEQ). A total of \$1,435,000 is estimated to be spent on this project from 2010 through 2014.	175,000
Other Drainage Improvements (02108): This project will allow for the construction of other drainage improvements where needed. Upper Scull Creek improvements will be funded under this project. In addition, there are numerous small drainage projects that have been identified. These projects are in the process of being prioritized for construction in the future.	200,000
Information Technology Improvements	
Microcomputer / Printer Replacements (02057): This project is for the replacement of failing and outdated personal computers (PC's), AS/400 system printers, and network printers. In order to make use of increased functionality of new PC software, PC hardware must be continuously evaluated and updated. This will help to ensure reliability and the reduction of increasing maintenance costs.	85,700
Local Area Network (LAN) Upgrade (02056): This project is to upgrade and expand the City's Local Area Network (LAN) / Network infrastructure. The LAN is used by every division in the City across twenty plus locations connecting approximately 800 devices. Increases in the system's user base and advances in technology have created a need for hardware and operating system upgrades. Future upgrades include replacement of all switches in the primary switch room located at the city administration building with a core chassis based switch that will allow for future growth and higher speed, reliability, and availability.	125,000
Geographic Information System (GIS) (02055): Geographic Information Systems (GIS) are organized collections of computer hardware, software, geographic data, and personnel designed to efficiently capture, store, update, manipulate, analyze, and display all forms of geographically referenced information. This system provides necessary information for planning, engineering, Hansen, and public utility projects. Additionally, GIS provides applications to assist many other City divisions including Police, Fire, Transportation, and Parks & Recreation. This project is to upgrade and expand the City's base GIS computer hardware, software, and data collection systems to accommodate growth in the system's applications and user base.	65,000
AccessFayetteville Technical Improvements (04047): This project provides funding for technical improvements, enhancements, third party applications, and maintenance of the AccessFayetteville website. AccessFayetteville utilizes a commercial Content Management System (CMS) that is configured and maintained by City staff. The CMS allows end users to add, edit, and approve the content that is displayed on the website.	25,000
<b>Document Management (02094):</b> This project is to add additional scanners and licenses as new applications are added to the Electronic Document Management System (EDMS).	30,000

Project Title & Description	2012 Budget
Data Center Upgrade (12001): In 2007, the City Administration Building data center moved off site into leased space due to power, space, and cooling constraints. Some of the leased data center equipment infrastructure is nine years old and will need to be replaced. This project will fund a new data center redundant air conditioning system and replacement of UPS batteries.	70,000
Other Capital Improvements  Building Improvements (02046): This project consists of the repair and replacement of damaged and worn roofs, HVAC systems, and provides for other improvements (such as remodels) to City owned buildings. This effort consists of preventive maintenance efforts to address the day to day facility operations of City facilities. During the upcoming year, the Building Maintenance Division plans to continue to work in house and through contractors.	362,600
<b>P.E.G. Television Center - Equipment (02061):</b> This project is for the replacement of various items of equipment essential to the ongoing operation of the Government Channel and the Television Center.	54,000
<b>On-Screen Graphics Generator Upgrade (12005):</b> The on-screen graphic generator creates names, lettering, and other graphics that go on the television screen in video productions in the studio and on the air. The current system has become unstable and is no longer supported by the manufacturer.	20,000
Studio Camera and Lighting Upgrades / Replacement (12008): This project allows periodic equipment replacement of some equipment up to and over 15 years old, such as cameras, camcorders, monitors, computers, and video recording devices. Other items include City Hall robotically controlled cameras, portable switching equipment, wireless video transfer equipment, tripods, and furniture.	85,000
Telecommunications Systems Upgrades (04001): The City currently has 17 telecommunications systems located throughout various facilities. These systems provide voice communications and voice mail services for all City employees at all City facility locations. Upgrades to these systems are essential to ensure no down time due to failing software and/or hardware and to ensure that all software versions are kept current to provide the most up-to-date technology. With all future upgrades, replacement equipment will be integrated so that all city facilities communicate in unison as if on one main system. Internal and external communications will be significantly enhanced. This system has suffered some serious crashes that have been detrimental to public safety communications. The police and city hall systems are integrated together and are the largest switches of all the facilities.	60,000

Project Title & Description	2012 Budget
Library Improvements  Library Materials Purchases (02049): This project provides library materials including literature, non-fiction, reference resources, films, books on CD, e-books, and parenting resources. The Fayetteville Public Library seeks to provide a collection of library materials at a level commensurate with benchmark cities, e.g. Lawrence, Ames, Champaign, Denton, lowa City as well as the national average for cities with a population of 50,000 to 99,000. In 2010, over one million items were borrowed and this upward trend is projected to continue.	336,500
<b>Library Computer Replacements (04004):</b> This project provides rotational replacement of computer resources. Public access computing is a core service ensuring all residents have computer and high speed connectivity. Uses include job searches, completing e-forms, classes, email, research, writing, school assignments, etc.	23,000
Parks & Recreation Improvements	
Other Park & Safety Improvements (02014): A prairie restoration project is ongoing at Lake Fayetteville to convert early succession fields into native prairie and oak savannah habitat. Park staff is working in other park locations to reduce mowing and maintenance cost by reestablishing native grasses, trees, and shrubs. Native grasses and wildflowers are also established along newly constructed trails to reduce maintenance cost. This project will include herbicide applications as needed, seed and plant purchases and installation, prescribed burns, and other related work to establish native grasses, trees, and shrubs.	10,000
Forestry, Safety & ADA Compliance (02045): This project consists of tree care, landscape installation, a tree farm, community and school education, tree replacements, and maintenance and removal of hazardous trees in parks and public lands. The annual fall National Arbor Day tree give away is also included. In addition to funds for a tree farm and turf resource which will eventually reduce the need to purchase trees and sod from vendors, staff will obtain an Urban Forest Analysis with an Urban Forestry Effects Model study by December 31, 2012 and every 10 years thereafter per Ordinance 5417 passed in August 2011. The study will assess the City's tree canopy, species and age distribution, percentage of impervious surface, monetary value of the urban forest, and determine areas absent of low, medium and high canopy concentrations to locate potential planting areas.	108,500
Lights of the Ozarks (02001): The Lights of the Ozarks display was initiated in 1993 as a way to increase HMR tax in the slow winter months. The Advertising & Promotion (A&P) Commission has contributed substantially through the years to purchase lights and in recent years to replace the lights with more energy efficient LED lights. The City installs the lights, the University Hospitality Events class organizes the parade, and the A & P Commission coordinates the rest of the events, including camel, pony, and carriage rides. The A & P Commission estimates that approximately 300,000 people attend the event yearly. Over 300,000 lights are displayed from Thanksgiving until New Years Eve. The City has worked towards purchasing all LED lights to continue being sustainable. This has reduced the utility cost and added light life of the display.	23,000
<b>Tree Escrow (08001):</b> Funds from this project can be used in a variety of ways such as planting or maintaining trees with either a seasonal FTE or by contract labor, or to purchase equipment supporting trees funded by tree escrow. Funds for this project are deposited through the development processes defined in Chapter 167 of the UDC and must be used within seven years or be refunded.	101,000

Police Improvements  Police Technology Improvements (06002): This project provides for the upgrade and replacement of computer and networking equipment, which is obsolete and/or malfunctioning. By providing updated equipment, officers will be kept informed of pertinent records. This project includes purchases for increased storage capacity and software to manage digital media files, improve wireless connectivity between the main police facility and substations, and other improvements as they become necessary.  Police Unmarked Vehicles (06003): The Police Department utilizes unmarked vehicles for a variety of tasks, such as gathering intelligence. Other tasks include the following: Conducting pre-raid intelligence for ERT deployment Conducting pre-raid intelligence for ERT deployment Conducting alcohol enforcement patrols Conducting surveillance for all the above activities Any activity that must be kept covert  Police Building Improvements (02047): This project is to repair/replace aging items such as flooring, cabinets, lighting, and small HVAC units in the Police Department building.  Police Specialized Equipment (02062): This project is to replace outdated and/or malfunctioning equipment used during police operations. Equipment items such as tasers, digital cameras, radars, decibel meters, surveillance equipment and other specialized equipment are needed for officers to perform duties.  Police MVR Replacement (12006): This project provides for the replacement of mobile video recorders. The current MVR's were purchased in 2007 and have a five year life expectancy. MVR's are an important component of each patrol unit by documenting evidence to support prosecution and makes citizen complaints more easily investigated.  Fire Safety Improvements  Fire Facility Maintenance (02006): This project is for major repairs to existing facilities that cannot be funded through the normal operating budget. It includes but is not limited to central station's roof repairs and fire escape replacements, remodeling of existing st	Project Title & Description	2012 Budget
Police Technology Improvements (04002): This project provides for the upgrade and replacement of computer and networking equipment, which is obsolete and/or maifunctioning. Project Title & Description	2012 Budget
Water & Sewer Fund (5400)	
WWTP Capital (5800)	
<b>Upgrade/Replace Lift Stations - W.W.T.P. (02068):</b> The lift stations provide a vital function in the overall treatment of wastewater. The stations are exposed to extreme wear conditions and must be upgraded routinely. Additionally, new developments within the City increase the flow to various stations requiring additional or higher capacity equipment.	112,000
Plant Pumps and Equipment - W.W.T.P. (02069): Many pieces of the WWTP equipment are essential to the wastewater treatment process. The equipment may suffer catastrophic failure and become unusable with little advance warning. The plant cannot operate and continue to produce permit complying effluent without adequate equipment. The project allows WWTP personnel to adapt to the needs of each season and year and still maintain compliance.	119,000
<b>Building Improvements - W.W.T.P. (02032):</b> This project is for structural maintenance, repair, and replacement of the existing buildings or parts of the buildings at both wastewater treatment plants.	36,000
Irrigation Reels - W.W.T.P. (11010): This project will replace the twelve existing reels that were purchased between 1985 and 1987. With a life expectancy of approximately 20 years, maintenance is becoming more extensive and costly. The irrigation reels are used to apply treated wastewater to the land application site, as described in the State approved Waste Management Plan and the State Land Application Permit. The effluent irrigation helps to minimize discharge to the White River during the summer months, therefore reducing the nutrient loadings of ammonia and phosphorus to the receiving stream. It also helps to stimulate growth of the Bermuda grass, therefore enhancing phosphorus uptake from the soil.	143,000
<b>Phosphorus Standards Management(10027):</b> This project supports efforts by the City operating independently or as part of a regional northwest Arkansas team, relating to phosphorus and other potential changes to stream standards, water quality standards and regulations, and wastewater discharge requirements. Some of the funds may be paid into regional efforts coordinated through Northwest Arkansas Regional Planning, the Northwest Arkansas Council, or other cooperative efforts.	50,000
Meter Operations Capital (1840)	
<b>Water Meters (02065):</b> This project is for the replacement of old water meters damaged beyond repair and expansion meters for new water service. Additional radio-read units will be installed on water meters that are located in difficult areas such as fenced back yards, alleys, inside buildings, and other time consuming locations.	330,000
<b>Backflow Prevention Assemblies (02066):</b> This project is for installation or replacement of backflow prevention assemblies on City facilities to meet backflow prevention mandate orders by the Arkansas Department of Health (ADH).	12,000

Project Title & Description	2012 Budget
<b>Business Office Improvements (03038):</b> This project is for various improvements in business office hardware, safety features, and office configuration. Specific improvements include the purchase of additional blue-bar printers to increase employee efficiency and installation of an emergency alarm system to notify the Police Department in the event of an unsafe condition or disruptive customer.	50,000
Capital Water Mains (5600)	
W/S Relocations for Street Bond Projects (11011): This project is for various water and sewer relocations for street bond projects where the street bond fund does not have sufficient funds to cover the utility relocations or where the water and/or sewer lines are to be increased in capacity. Projects are to be paid by Water & Sewer revenue bond funds.	500,000
Water System Rehabilitation & Replacement (12009): This project provides for upgrading, replacing, or rehabilitating existing water infrastructure consisting of water storage, pumping, and distribution assets system wide. Specific work will be determined based on the need to stop leaks, reduce water loss, increase local or area flow and/or pressure in areas with insufficient capacity, in order to meet current and projected future domestic, commercial and industrial flow, and fire flow demands. It may create loops and replace or rehabilitate pipes, pump stations, and/or storage assets.	143,000
Water Replace - Huntsville, Crossover to Van Hoose (11012): This project is to install approximately 19,000 feet of 12" water line on Huntsville Road (Highway 16) between Crossover Road (Highway 265) and Van Hoose Drive. The project is required for several reasons: the soil is corrosive and the existing 8" line experiences numerous major breaks; the need for an increase in the capacity of the line feeding the area served by this line has been identified in every water mater plan performed starting in 1988; some of the higher elevation areas south of Huntsville Road experience low pressure during high water usage; and the fire protections available in the area needs to be increased.	1,239,500
Sanitary Sewer Rehabilitation (02017): This project will reduce storm and ground water flows into the system which cause sewer overflows and is required to meet state and federal laws. Negotiations with the ADEQ produced the agreement that as long as the City continues to pursue rehabilitation, no enforcement action will be initiated. Rehabilitation is required in areas with wet weather overflows to allow continued development. This project includes replacing and lining existing sewer mains and manholes, upgrading lift stations, and building relief lines. Design flows for the new West Side WWTP are based on continued rehabilitation. Minisystems 6, 9, 9x, 14A, 14B, 20 and Greenland require all work field study, analysis, design, and construction.	330,000
Total Water & Sewer Fund Projects:	3,064,500

Project Title & Description	2012 Budget
Solid Waste Fund (5500)	
Compost Site Slab Expansion (10002): This project is to concrete the current composting pad to improve operations within the composting program. Increased waste diversion through composting of organic wastes, will be the result of this project. Modifying the composting permit from a class "Y", designating yard waste only, to a class "O" for organics will necessitate the concreting of the current site over a period of three years in order to effectively operate an organics composting program. Storm water drainage / detention improvements will also be a part of the expansion. Operating an organics composting operation requires frequent turning of rows which presently is hindered by rain events rendering the pad unusable for the compost row turner unless the pad is dry. Turning of rows allows more oxygen into the process thereby reducing odors, which will be a major concern when operating a class "O" facility.	14,000
<b>Solid Waste Compactors (10001):</b> The drop box program utilizes compactor boxes to efficiently handle solid waste from large quantity generators. Compactor boxes decrease the frequency of collection and are serviced with existing drop box trucks. The aesthetics are improved by having a compactor as opposed to multiple dumpsters to service. Many businesses desire this type of collection. The division is competitively pursuing accounts currently serviced by private franchised haulers.	119,000
North / Central Recycling Drop Off Facility (12004): Recycling drop offs provide the most cost effective option for expanding the recycling program to service multi-family and others not serviced through the curbside program. Expanding drop offs to other areas in the City will provide more convenient opportunities to recycle, expand recycling and environmental education opportunities, and increase volunteer opportunities. Drop off size can be functional in a 200' x 200' area; however, landscaping and educational components should be considered. This project may provide funds for a land purchase based on site availability. The north/central expansion is planned for 2012.	455,000
Total Solid Waste Fund Projects:	588,000

Project Title & Description	2012 Budget
Shop Fund (9700)	
Other Capital Improvements (1920)	
Shop Improvements (12007): This project is to increase efficiency by installing a drive-on infloor lift, a two post lift, and an overhead crane, building a storage shed to house the new lube system, and modifying the current in-floor lift. The last upgrade of equipment for technicians was in 1997.	295,000
Fleet Operations Capital (1920)	
Police/Passenger Vehicles - Replacement (02081): The purpose of this project is to replace obsolete or high maintenance vehicles which are no longer suited for service. 2012 purchases include: three mid-size sedans, six police package Tahoes, one police package motorcycle, and one mid-size sport utility.	320,000
<b>Solid Waste Equipment - Replacement (02082):</b> The purpose of this project is to replace obsolete or high maintenance sanitation vehicles which are no longer suited for solid waste collection or recycling. 2012 purchases include two front loader units, three side loader units, and two recycling units.	1,556,000
Construction Equipment - Replacement (02077): The purpose of this project is to replace obsolete or high maintenance vehicles which are no longer suited for regular service. 2012 purchase is for a dozer.	105,000
Heavy Utility Trucks - Replacement (02079): The purpose of this project is to replace obsolete or high maintenance vehicles which are no longer suited for regular service. 2012 purchases include a truck tractor and a dump truck.	197,000
<b>Tractors/Mowers - Replacement (02083):</b> The purpose of this project is to replace obsolete or high maintenance vehicles which are no longer suited for regular service. 2012 purchases include a hay baler, two brush mowers, and a mower.	108,000
<b>Light/Medium Trucks - Replacement (02078):</b> The purpose of this project is to replace obsolete or high maintenance vehicles which are no longer suited for regular service. 2012 purchases include seven trucks.	302,000
Other Vehicles/Equipment - Replacement (02080): The purpose of this project is to replace obsolete or high maintenance vehicles which are no longer suited for regular service. 2012 purchases include two plows, a pump, a truck mounted sewer cleaner, a semi trailer, and a sidewalk sweeper.	453,000
<b>Backhoes/Loaders - Replacement (02076):</b> The purpose of this project is to replace obsolete or high maintenance vehicles which are no longer suited for regular service. 2012 purchases include four backhoes.	274,000
Total Shop Fund Projects	3,610,000
Total Capital Improvements Program - 2012 Projects	\$ 15,600,000

### City of Fayetteville's Debt Position

The City of Fayetteville has established a practice and policy of paying for all capital projects and capital improvements on a pay-as-you-go basis using current revenues, whenever possible. If a project or improvement is of sufficient size and need that it cannot be financed with current revenues, long-term debt will be recommended. The basis for this policy is that the City has maintained a commitment to infrastructure improvement and maintenance. The City also considers the cost versus the benefits of debt financing. A recommendation is made only when the benefits outweigh the costs. The City's debt policy also states that the City will attempt to refinance outstanding debt if a determination is made that the City will benefit by reduced interest expense over the remaining life of the bonds.

Like most municipalities, the City of Fayetteville borrows funds through tax exempt municipal bonds. The City carefully analyzes each proposed bond issue to determine the need for the improvement, its useful life, and current and future revenues available to provide debt service. Existing debt service requires resources from both general governmental resources and enterprise fund resources.

#### **Bond Ratings**

The City's debt policy says that the communications will be maintained with the bond rating agencies and that the City will continue to strive for improvements in the City's bond rating. Such communications are vitally important due to the fact that, generally speaking, the higher rating a city has the lower the interest rate that must be paid. As such, the City will periodically confer with the rating agencies to update them on the financial status of the City.

The two major investment services for bond ratings are Standard & Poor's Corporation and Moody's Investor Service. The following schedule briefly describes the ratings provided by the respective agencies for municipal bonds.

### Moody's and Standard & Poor's Credit Ratings for Municipal Bonds

<u>Ratii</u>	<u>ngs</u>	<u>Description</u>		
Moody 's	Standard & Poor's			
Aaa	AAA	Best quality, extremely strong capacity to pay principal and interest.		
Aa	AA	High quality, very strong capacity to pay principal and interest.		
A-1 A	А	Upper medium quality, and strong capacity to pay principal and interest.		
Baa-1 & Baa	BBB	Medium grade quality, adequate capacity to pay principal and interest.		
Ba and lower	BB and lower	Speculative quality, low capacity to pay principal and interest.		

#### **Description of Outstanding Bonds**

#### Special Obligation Bonds

Sales & Use Tax Refunding and Capital Improvement Bonds, Series 2005B: The bonds are special obligations of the City payable from receipts from a three-quarter of one percent citywide sales and use tax. The proceeds of the bonds are for the purpose of financing a portion of the costs of certain improvements to the City's wastewater treatment plants and sewerage and related facilities. The original issue amount was \$45,000,000.

**Property Tax Increment Interest Accretion Bonds (Highway 71 East Square Redevelopment District No. 1 Project), Series 2005:** The bonds are special obligations of the City payable solely from the Property Tax Increment of the District and monies in the funds and accounts established under the Indenture. The proceeds of the bonds were issued for the purpose of financing the costs of acquisition of certain real property within the City, the demolition of existing structures thereon, site preparation in connection therewith and the construction of sidewalk and crosswalk improvements. The original issue amount was \$3,725,000.

Sales and Use Tax Capital Improvement Bonds, Series 2006A: The bonds are special obligations of the City secured by and payable solely from receipts from a one-quarter and a three-quarter of a one percent citywide sales and use tax. The proceeds of the bonds are for the purpose of financing a portion of the costs of certain improvements to the City's wastewater treatment plants, sewerage and related facilities, to certain City streets, and to the City's trail system. The original issue amount was \$50,000,000.

Sales and Use Tax Capital Improvement RLF, Series 2006: The City of Fayetteville issued Not to Exceed \$20,000,000 Sales and Use Tax Bond Series 2006 through the Arkansas Natural Resources Commission bond program commonly referred to as the Revolving Loan Fund (RLF). The bonds were issued for financing a portion of the costs of improvements to the City's wastewater treatment plants, sewerage and related facilities. The 2006 bonds are special obligations of the City secured by and payable solely from receipts of the .75% city-wide sales and use tax approved by the voters to support the project. All \$20,000,000 in bonds has been issued.

Sales and Use Tax Capital Improvement Bonds, Series 2007A: The bonds are special obligations of the City secured by and payable solely from receipts from a one-quarter and a three-quarter of a one percent citywide sales and use tax. The proceeds of the bonds are for the purpose of financing the costs of certain improvements to the City's wastewater treatment plants, sewerage, and related facilities. The original issue amount was \$14,340,000.

Sales and Use Tax Capital Improvement Bonds, Series 2009A: The bonds are special obligations of the City secured by and payable solely from receipts from a one-quarter and a three-quarter of a one percent citywide sales and use tax. The proceeds of the bonds are for the purpose of financing a portion of the costs of certain improvements certain City streets and to the City's trail system. The original issue amount was \$11,250,000.

#### Revenue Bonds

**Hotel & Restaurant Gross Receipts Tax Refunding, Series 2003:** These bonds are special obligations of the City and were issued for the purpose of refinancing the Hotel & Restaurant Gross Receipts Tax Refunding bonds, Series 1998. The bonds are payable solely from amounts received by the City from a 1% Hotel & Restaurant Gross Receipts tax. As a result of the refunding, the City has a projected net present value savings of approximately \$334,000 over the remaining life of the bonds. The original issue amount was \$6,335,000.

Water & Sewer System Refunding, Series 2002B: The bonds are payable solely from the net revenues derived from the operation of Fayetteville's water and sewer system. The proceeds of the bonds were used to refund Series 1994 and Series 2000 water and sewer system bonds. The refundings were issued to take advantage of lower interest rates, to restructure existing bond covenants, and to mitigate any interest risk on the variable interest rate of the Series 2000 bond issue. The original issue amount was \$6,540,000.

Water & Sewer System Refunding, Series 2004: The bonds are payable solely from the net revenues derived from the operation of Fayetteville's water and sewer system. The proceeds of the bonds were used to refund Series 1999 water and sewer system bonds. The refundings were issued to take advantage of lower interest rates, to restructure existing bond covenants, and to mitigate any interest risk on the variable interest rate of the Series 1999 bond issue. The original issue amount was \$6,090,000.

Water & Sewer System, Series 2009A: The bonds are payable solely from the net revenues derived from the operation of Fayetteville's water and sewer system. The bonds do not constitute an indebtedness of the City within the meaning of any constitutional or statutory debt limitation or restriction. The issuance of the Series 2009 Bonds shall not directly, indirectly or contingently obligate the City to levy or pledge any taxes whatsoever or to make any appropriation for the payment of the Series 2009 Bonds. The original issue amount was \$8,210,000.

#### Notes Payable

**Brooks-Hummel Land Purchase, 2007:** In June 2007, the City entered into a promissory note with Forrest F. Brooks Revocable Trust for the purchase of 13.75 acres of land for \$495,000. The agreement terms included \$167,000 to be paid at closing and the remaining \$328,000 to be paid annually in five installments plus 6% interest on the unpaid balance.

### City of Fayetteville, Arkansas Computation of Legal Debt Margin December 31, 2011

#### General Obligation Debt Limit

Debt margin is a calculation based on the assessed value of property located within the City limits. The debt limit is established by state statute and is limited to 20% of assessed value.

2011 Assessed Value	\$	1,249,812,400 *
Debt Limit - 20% of Assessed Value		249,962,480
General Obligation Bonds Payable	\$ 0	
Less: Debt Service Fund	 0	
Total Debt Applicable to Debt Limit		0
Legal Debt Margin	\$	249,962,480

### Debt Applicable to Debt Limit 2001-2011

#### Enterprise Fund Debt Limit (Revenue Bond Debt)

Enterprise fund debt is established by the cash flow for each enterprise fund. For example, the Water & Sewer Fund must be able to generate sufficient cash flows to meet normal operating and capital, as well as provide sufficient resources to meet the annual debt service requirements. Prior to issuing enterprise fund bonds, an analysis of current revenues and expenses is conducted to determine the revenues required to support a bond issue.

#### Special Obligation Bond Debt Limit

Special obligation bond debt is limited by the maximum amount of the special source (such as sales tax) can generate within terms of bond covenants.

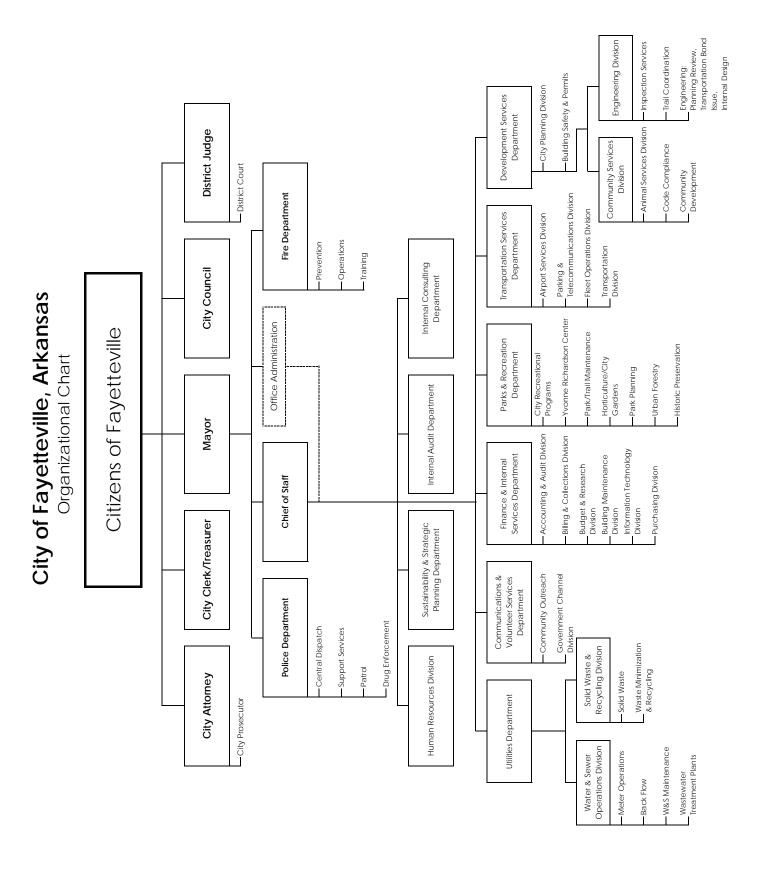

<sup>\*</sup> Note: The assessed value does not include City utilities.

#### **GLOSSARY**

**ACCOUNT GROUP.** A self-balancing set of accounts which are not a fund or a fiscal entity. General Fixed Assets Account Group and General Long-Term Debt Account Group are such examples.

**ACCOUNTING SYSTEM.** Records and procedures that discover, record, classify, and report information on the financial position and operations of a governmental unit or any of its funds.

**ACCRUAL.** Revenue and expenses are recorded when they are incurred.

**AD VALOREM.** A basis for levy of taxes upon property based on value.

**AGENCY FUND.** A fund consisting of resources received and held by the governmental unit as an agent for others.

**APPROPRIATION.** An authorization granted by the board to incur liabilities for specific purposes.

**ASSETS.** Probable future economic benefits obtained or controlled by a particular entity as a result of past transactions or events.

**BALANCED BUDGET.** A budget balanced by fund, for all funds maintained by the City, in which total anticipated revenues must equal or exceed the budgeted expenditures for each fund.

**BOND.** A written promise to pay a specified sum of money, called the face value or principal amount, at a specified date or dates in the future, called the maturity date(s), together with periodic interest at a specified rate.

**BOND DISCOUNT.** The excess of the face value of a bond over the price for which it is acquired or sold.

**BOND PREMIUM.** The excess of the price at which a bond is acquired or sold over its face value.

**BONDED DEBT.** The portion of indebtedness represented by outstanding bonds.

**BUDGET.** A financial operating plan consisting of estimates of proposed expenditures for a given period and the proposed means of financing them.

**BUDGET CONTROL.** The control or management of the approved Budget for the purpose of keeping expenditures within the limitations of available appropriations and available revenues.

**BUDGET DOCUMENT.** The instrument used by the budget-making authority to present a comprehensive financial program to the appropriating body.

**BUDGET MESSAGE.** A general discussion of the budget as presented in writing by the Mayor to the City Council. The message contains an explanation of the principal budget items and recommendations regarding the financial policy for the coming year.

**CAPITAL BUDGET.** This budget deals with large expenditures for capital items normally financed by borrowing. Usually capital items have long-range returns, useful life spans, are relatively expensive, and have physical presence such as buildings, roads, sewage systems, etc.

**CAPITAL IMPROVEMENT.** Any property, asset, or improvement with an estimated value greater than five thousand dollars, and estimated life or usefulness of one or more years, including land, interest therein and including constructions, enlargements, and renovations.

**CAPITAL IMPROVEMENT PROGRAM.** An approach or technique for identifying and forecasting capital outlay decisions that a government expects to make over a five year period.

**CAPITAL OUTLAY.** Expenditures that result in the acquisition of or addition to fixed assets.

**CAPITAL PROJECTS FUND.** A fund created to account for all resources to be used for the acquisition or construction of designated fixed assets.

**CASH.** Legal tender or coins that can be used in exchange for goods, debt, or services. This includes the value of assets that can be converted into cash immediately

**CONSTRUCTION WORK IN PROGRESS.** The cost of construction work that has been started but not yet completed and placed in service.

**CONTINGENCY FUND.** Funds set aside for unforeseen expenses of uncertain amounts or funds set aside for known expenses, such as salary increases, but uncertain amounts.

**CONTRACTUAL SERVICE.** An agreement to perform a service or task by external organizational units. A group of accounts which cover the above as well as travel and training and other miscellaneous services.

**DEBT SERVICE.** The amount of money necessary to pay interest on an outstanding debt, the principal of maturing material serial bonds, and the required contributions to a sinking fund for term bonds.

**DEBT SERVICE FUND.** A fund established to finance and account for the payment of interest and principal on all general obligation debt, serial and term, other than that payable exclusively from special assessments and revenues from fiduciary and proprietary funds.

**DEMAND.** Demand is the external factor that demonstrates the "need" for a program. Demand data enables decision-makers to adjust services and costs to respond to changes in direction for the service.

**DEPARTMENT.** Departments are the major organizational subdivisions. They have a broad overall purpose. In the City of Fayetteville organization structure, each department is comprised of one or more divisions.

**DEPRECIATION.** Expiration in the service life of fixed assets, attributable to wear and tear, deterioration, action of the physical elements, inadequacy, and obsolescence.

**DESIGNATED FUND.** Funds created to account for assets set aside for a specific purpose.

**DIVISION.** Divisions are the major functional sub-divisions and correspond roughly to the departmental hierarchy formerly used by the City. Each Division reports to one of more departments.

**EFFECTIVENESS.** Effectiveness data enables decision-makers to see that quality does not suffer as productivity increases, and that constituents are satisfied with services.

**ENCUMBRANCE.** An account used to record the estimated amount of contracts, salary commitments and purchase orders that are chargeable to an appropriation.

**ENTERPRISE FUND.** A fund established to finance and account for the acquisition, operation, and maintenance of governmental facilities and services which are entirely or predominantly self-supporting by user charges.

**EXPENDITURE.** Accounts which are kept on either the accrual basis or modified accrual basis of accounting and designates the cost of goods delivered or services rendered, whether paid or unpaid, including expenses and capital outlays.

**EXPENSE.** Charges incurred for operation, maintenance, interest, and other charges that will benefit the current year.

FIDUCIARY FUND. Any fund held by a governmental unit as an agent or trustee.

**FISCAL YEAR.** A 12-month period of time to which the annual budget applies and at the end of which a governmental unit determines its financial position and the results of its operations.

**FIXED ASSET.** Long-term assets that are intended to be held or used, such as land, buildings, machinery, furniture, and other equipment.

**FRANCHISE TAX.** Fees levied on a corporation in return for granting a privilege sanctioning a monopoly or permitting the use of public property, usually subject to regulation set by the governing body.

**FULL-TIME EQUIVALENT POSITION (FTE).** A part-time position converted to the decimal equivalent of a full-time position based on 2,080 hours per year. For example, a summer lifeguard working for four months, or 690 hours, would be equivalent to .33 of a full-time position.

**FUND.** A fiscal and accounting entity with a self-balancing set of accounts recording cash and other financial resources, together with all related liabilities and residual equities, or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

**FUND BALANCE.** Fund equity of a fund or in Governmental Funds, the amount assets exceed liabilities. Unrestricted Fund Balance is available for appropriation.

**FUND EQUITY.** The excess of assets over liabilities. A portion of the equity may be reserved, restricted or designated; the remainder is Fund Balance.

**GENERAL FIXED ASSETS ACCOUNT GROUP.** A self-balancing group of accounts set up to account for the general fixed assets of a governmental unit.

**GENERAL FUND.** A fund used to account for all transactions of a governmental unit that are not accounted for in another fund, such as police and fire services.

**GENERAL LONG-TERM DEBT ACCOUNT GROUP.** A self-balancing group of accounts set up to account for long-term debt which is legally payable from general revenues.

**GOAL.** A goal is a statement of desired conditions to be maintained or achieved through the efforts of an organization. Actual total achievement may be impossible, but the goal is a standard against which to measure progress toward ideal conditions. A goal is a definition of results toward which the work of the organization is directed.

**GOVERNMENTAL FUND.** A generic classification adopted by the National Council on Governmental Accounting to refer to all funds other than proprietary and fiduciary funds. General fund, special revenue funds, capital projects funds, debt service funds, and special assessment funds are all examples of governmental fund types.

**GRANT.** A contribution by one governmental unit to another unit. The contribution is usually made to aid in the support of a specified function or for the acquisition or construction of fixed assets.

**INCOME.** A term used to represent the excess of revenues earned over the expenses incurred in carrying on an enterprise operation.

**INTERGOVERNMENTAL REVENUE.** Revenue from other governments. Grants, entitlements, and shared revenues are types of intergovernmental revenue.

**INTERNAL SERVICE FUND.** A fund established to finance and account for services and commodities furnished by a designated department to other departments. Amounts expended by the fund are reestablished from either operating earnings or by transfers from other funds.

**INVESTMENT.** Securities held for the production of income in the form of interest and dividends.

**LIABILITY.** Probable future sacrifices of economic benefits arising from present obligations of a particular entity to transfer assets or provide services to other entities in the future as a result of past transactions or events.

**LINE-ITEM.** A detailed classification of an expense or expenditure classified by object within each Division.

**LONG-TERM DEBT.** Debt with a maturity of more than one year after the date of issuance.

**MODIFIED ACCRUAL BASIS.** Governmental funds use the modified accrual basis of accounting. Revenues are recognized in the period in which they become both available and measurable. Expenditures are recognized at the time a liability is incurred.

**NET INCOME.** A term used in governmental enterprise to designate the excess of total revenues over total expenses.

**NONOPERATING EXPENSE.** Proprietary fund expenses incurred in performance of activities not directly related to supplying the basic service by a governmental enterprise.

**NONOPERATING INCOME.** Proprietary fund income that is not derived from the basic operations of such enterprises.

**OBJECT CODE.** Expenditure classification according to the types of items purchased or services obtained; for example, personnel services, materials and supplies, contractual service, and capital.

**OBJECTIVE.** An objective is a decision about the amount of progress to be made within a specified period of time. It states in measurable and quantitative terms the results to be achieved within a specified time and plans the incremental steps to achieve the goal.

**OPERATING TRANSFER.** Legally authorized interfund transfers from a fund receiving revenue to the fund that makes expenditures.

**ORDINANCE.** A formal legislative enactment by the governing board of a municipality. If it is not in conflict with any higher form of law, such as a state statute or constitutional provision, it has the full force and effect of law within the boundaries of the municipality to which it applies.

**PERFORMANCE BUDGET.** A budget which relates appropriations to work loads. By featuring unit measures, performance budgets are believed to express official and citizen interest in the managerial value of efficiency.

**PERFORMANCE MEASURES.** Performance measures provide a means of identifying the level of service provided. Performance measures include a measurement of Demand, Workload, Productivity, and Effectiveness.

**PROGRAM.** Operating units within a Division. Each program represents a specific type of activity within its Division aimed at providing a service for which the City is responsible.

**PROGRAM BUDGET.** A budget which relates appropriations to goals. Budget makers practicing this approach strive to appropriate sums to non-organization, goal-oriented cost centers. Program budgeting is believed to express official and citizen interest in planning and in the effective use of resources.

**PROGRAM OBJECTIVES.** A program objective is a decision about the amount of progress to be made within a specified period of time in reducing the gap between real conditions and the ideal conditions described in the Program Description. It states in measurable quantitative terms the results to be achieved within a specified time and plans the incremental steps to achieve them.

**PRODUCTIVITY.** Unit cost (productivity data) enables decision-makers to measure efficiency, as opposed to total expenditures. Productivity unit costs can also be used to quickly estimate the cost of adding more service or savings realized from reductions in service.

**PROPRIETARY FUND.** Sometimes referred to as "income-determination" or "commercial-type" funds. Examples are enterprise and internal service funds.

**RESERVE.** An account that records a portion of the fund equity that must be segregated for some future use and which is not available for further appropriation or expenditure.

**RETAINED EARNINGS.** The accumulated earnings of an enterprise or internal service fund that have been retained in the fund and that are not reserved for any specific purpose.

**REVENUE.** Additions to fund financial resources other than from interfund transfers and debt issue proceeds.

**SPECIAL REVENUE FUND.** A fund established to account for revenues from specific taxes or other earmarked revenue sources that by law are designated to finance particular functions or activities of government.

**TAX.** A compulsory charge levied by a governmental unit for the purpose of raising revenue. These revenues are used to pay for services or improvements provided for the general public benefit.

**UNRESERVED FUND BALANCE.** The amount remaining in a fund that is not reserved for some future use and which is available for further appropriation or expenditure.

**USER CHARGE.** A charged levied against users of a service or purchasers of a product of an enterprise or internal service funds.

**WORKLOAD.** Workload data answers the question about how much service is being provided, as well as how output is meeting service demand. Workload data is also the basis, along with total expenditures, for unit cost or productivity indicators.
